STUDENT RESEARCH: STUDENTS ASSIST LOCAL ANIMAL SHELTER

Pintler Pets, the Anaconda-Deer-Lodge animal shelter, was recently overwhelmed with a large number of feral cats. As a result, the facilities were stretched beyond their limits.

Construction Technology students, JJ Potvin and Jim Strande assisted Pintler Pets with their recent major influx of feral cats by constructing a "lean to" addition to the building.

Pintler Pets is a private, non-profit 501(c)3 Humane Society in Anaconda, MT
