This Event is brought to you for free and open access by the Events at Digital Commons @ Montana Tech. It has been accepted for inclusion in Create Math Institute by an authorized administrator of Digital Commons @ Montana Tech. For more information, please contact sjuskiewicz@mtech.edu.

SOCIAL NETWORKING CHARTS

For this project, we created our own social connection charts. We would take a list of our friends and show the friendships between them. Each of our web charts shows our friends' relationships. We later had to take a web chart of one of our instructor's facebook friends and classify them by the friendship strength between her and each of her friends. A three would symbolize a strong friendship, a two would symbolize a medium friendship, and a one would symbolize a weak friendship.
