RE: Butte Priority Soils Operable Unit (BPSOU) Unreclaimed Sites – Final Field Sampling Plan (FSP) #3: UR-06, UR-07, UR-20, UR-22, UR-35, and UR-36

Agency Representatives:

I am writing to you on behalf of Atlantic Richfield Company to submit the **Butte Priority Soils Operable Unit (BPSOU) Unreclaimed Sites Final Field Sampling Plan (FSP) #3** for review and approval. The plan has been revised to reflect the Agency comments on the Unreclaimed Sites Draft Final Field Sampling Plan (FSP) #3. Agency comments and Atlantic Richfield Company responses are provided below, and the final FSP is included in the email with this letter.

Response to Specific Comments

1. Site: UR-06 Capri Motel Parking Lot:

For previous sampling efforts it is stated that three previous samples have been collected and results are provided in Table 1. However, Table 1 only shows two sample results. Please correct text as appropriate and include additional sample results as necessary.

Atlantic Richfield Response: The text has been revised.

2. Site: UR-20 Park and Covert Streets (Northwest Corner):

For previous sampling efforts it is stated that three previous samples have been collected and results are provided in Table 4. However, Table 4 only shows one sample result. Please correct text as appropriate and include additional sample results as necessary.

Atlantic Richfield Response: The text has been revised.

3. Site: UR-22 N. Arizona and E. Granite St. (Northeast Corner):

For previous sampling efforts it is stated that three previous samples have been collected and results are provided in Table 3. However, Table 3 only shows one sample result. Please correct text as appropriate and include additional sample results as necessary.

Atlantic Richfield Response: The text has been revised.

4. Site: UR-36 S. Parrot Slope:

An additional sample should be added to the eastern portion of the northern lobe to help fully characterize this area. Please add this additional sample location.

Atlantic Richfield Response: Atlantic Richfield believes this area is a natural feature consistent with native soil (such as rock outcropping) and additional sampling in this area is not warranted. Additional samples can be requested in the field by the Agency oversight representative or sampling team and recorded as opportunistic samples to fully characterize the site.

End of Comments

If you have any questions or comments, please call me at (907) 355-3914.

Sincerely,
