Silver Bow Creek Conservation Area (SBCCA) 60% Technical Specifications Submittal

Agency Representatives:

On behalf of Atlantic Richfield Company, I am submitting the Silver Bow Creek Conservation Area (SBCCA) 60% Technical Specifications ([SBCCA 60% Technical Specifications](#)) for U.S. Environmental Protection Agency (EPA) and Montana Department of Environmental Quality review. These specifications build upon those initially provided within the Grove Gulch and Buffalo Gulch submittals, updated to address formatting issues, and to integrate all currently anticipated common construction materials and their placement requirements. The SBCCA Technical Specifications will be progressed in parallel with the Diggings East and Buffalo Gulch Remedial Design Packages. Any remaining project-specific exceptions will be integrated into supplemental specifications or directly into the Construction Drawings of each respective project.

Atlantic Richfield looks forward to maintaining a productive working relationship with the Agencies as we continue implementation of the SBCCA projects. To facilitate construction work in 2025, I kindly request you complete your technical review within 60 days of receipt of this package.

If you have any questions or comments, please call me at (406) 723-1834.

Regards,

Josh Bryson, PE, PMP
