Re: Approval of the Final Butte Priority Soils Operable Unit (BPSOU), Draft Final Interim 2023 Site-Wide Groundwater Quality Assurance Project Plan (QAPP) (dated April 5, 2023)

Dear Josh:

The U. S. Environmental Protection Agency (EPA), in consultation with the Montana Department of Environmental Quality (DEQ), is approving the *Draft Interim 2022 Site Wide Groundwater Quality Assurance Project Plan (QAPP)* (dated April 5, 2023) with the following comments. Once the comments have been addressed, please distribute the QAPP as final.

Comments:

- Please include the attached signature page and EPA crosswalk in the final version and distribute the QAPP.
- Please note that if this plan were to change, please submit a revised QAPP to the EPA and DEQ for review and approval.
- EPA would like to change the QAPP requirements for the data validation process for the following groundwater samples.
 - 1. Point of Compliance Wells Assuming the same laboratory is utilized throughout the year, please perform Stage 4 validation on one data package per each sampling event. It is recommended to consolidate the collected samples into one data package.
 - 2. All other validation processes/procedures are acceptable.

If you have any questions or concerns, please call me at (406) 457-5019.

Sincerely,

Nikia Greene Remedial Project Manager
