**SOME EARLY HISTORY**
The Committee of Safety in Butte City was organized in the summer of 1852, when the frequency of midnight burglars and assaults of footpads indicated the camp was infested by a band of desperate robbers.

The first public school was started in the latter part of 1864; the first choral society in May of 1865.

**The Stockgrowers Association was organized in June, 1885, in the Mining City.**

**St. James Hospital was founded in 1881 and opened by the Sisters of Charity of Fort Lewevour in October of that year.**

**The Silver Bow Water company was incorporated in 1881, the source of supply being Bull’s Run in Brown’s gulch.**

**Dinners: Two eggs, please. Don’t fry them a second after the white is cooked. Don’t turn them over. Not too much grease. Just a small pinch of salt on each. No pepper well, what are you waiting for?**

**Waiter:** The boy’s name is Betty. Is that all right, sir?

**Baseball:** You should have been here at eight o’clock.

**New Secretary:** Why, what happened?"
Beach, Blackjack, Dancing Girls; All Get Free Play But Class in Jail

Late last Wednesday evening the new SUB opened with a bang. For the live ones, the featured attraction for the evening was a kick-chorus; for the intellectuals, there was black-gold. The kick-chorus froze, and the beer went warm. The roulette wheel stopped, the dice were thrown, and the beer went warm. For the live ones, the featured attraction for the evening was a kick-chorus; for the intellectuals, there was black-gold. The kick-chorus froze, and the beer went warm. Thou Taps Ups Incentive To Join Fraternity

In a closed meeting of this chapter a number of measures were taken to encourage newcomers to join the fraternity. These measures were as follows:

1. Initiation fees would be reduced.
2. New members would be exempted from paying dues for the first year.
3. Financial aid would be made available to all members at no interest.
4. The fraternity would be supplied with no cost to the members.

Unfortunately, none of these offers were good enough until April 30, 1959...

Mrs. File, proprietress of the book store in Main Hall was arrested late yesterday by P.B.I. agents as she tried to make a getaway in her souped-up travelall. Known to all as a quiet, reserved senior woman, Mrs. File was in actuality a branch of the Mafia.

E-Day Is Big Success

Both Corset of Bug Fork, Montana, and president of the Andy Carter Security, recently announced that Education Day was a big success. Of course there were a few mishaps.

An unknown student in the Chemistry department was one of the demonstrative experiments and set the Chemistry Building on fire. In the Mining Department one of the faculty set a fire in the hall with the aid of the Engineering Building while playing with one of the jackhammers. The Geology Department had a wonderful display of various minerals in the latest styles. The Mineral Club had various polished rocks on display. They intended to demonstrate the cutting of rocks, but someone losing the key to the laboratory this display was not published. In the Management Department a large display of various minerals was published under the guise of nuts and cigarettes.

This brings to a close the fragrant career of Mrs. File, better known to the underground as Dorothy Dimple. Many will remember Dimples in Chicago in earlier years when she was astralized as a gun moll with such gangs as the late Al Capone.

When asked for an explanation of her sudden arrest, Mrs. File replied that she was "just trying to make a living."

Tourist: "What kind of pie is this—apple or peach?"

Waitress: "Well, then it's peach. The apple tastes like putty."

"Great that our coffee tastes like dishwater—you have to adjust the taste since we haven't had coffee cups for years."

Doll E. Picnic, assistant professor of the book store in Main Hall was arrested late yesterday by P.B.I. agents as she tried to make a getaway in her souped-up travelall. Known to all as a quiet, reserved senior woman, Mrs. File was in actuality a branch of the Mafia.

Sabotage in His Classes

Professor McAdams complained yesterday that certain of his colleagues were sabotaging his class in screening potentials by enticing his students to engage in other activities such as courses in film materials, Watts electricity, slide technology, U.S. Diplomacy, and leash of materials. "I don't expect much," said Professor McAdams. "I'm not my students here at 6:00 A.M., and they can do home any time after 11:30 P.M. It's too much to ask?"

"How did George go through his rich uncle's inheritance so fast?"

"Well, he spent a good bit of it in wine, women and new things. He rest he squandered."

"Dear Jane and Bill: If there's anything we need most, it's a shelter, and such a lovely, sweetly small one."

"I've got to get Ford started in the morning and had to have it."

"I won't have it."

"I couldn't get his Ford anyway."

"The only difference is that Ford is that they have thrown away the crank and the conse-

Another thing you can still get for a penny is your incorrect weight.

When contacted for a statement, Mr. Picnic said, "My law and (Kooler Shout) said all I could do is plead the fifth amendment."

Picnic Summoned To Appear Before House Committee

Doll E. Picnic, assistant professor of Social Studies at Montana State School of Mines, has been summoned to appear before the House Un-American Activities Committee for his subversive teaching to the students enrolled in his class.

This action came after numerous complaints from clergy, parents, wives, and businessmen to whom the students do business. These people claimed the students were "brain-washed."

When contacted for a statement, Mr. Picnic said, "My law, my way, and (Kooler Shout) said all I could do is plead the fifth amendment."

Goldiggers Do It Again

The School of Mines football team had a complete winning season again this year. This makes 21 games in a row that have been won by the big bruising Goldiggers. If the team keeps up this pace, they will very likely set a new national record.

The many athletic scholarships that have been granted to the outstanding players from high schools in the United States and Canada, have enabled the School of Mines to produce tremendous teams.

The Diggers have great depth with four teams that are equally talented. The weight—this year the team averaged 282 pounds—came down slightly from 314.5 last year’s average of 241 pounds. Big Dave Dickow was the heaviest man on the team, weighing 308 pounds.

The Diggers held the teams they played scoreless, with only one team getting past the twenty-yard line because of a fumble. The Goldiggers breezed through the conference race by averaging more than 40 points per game against their opponents.

Because of their terrific record and well-balanced returning team, the School of Mines is entertaining to obtain games with better teams, such as Army and Notre Dame. If they can obtain these games, there is no doubt which team will be first in the nation.

No More Please

Because of the tremendous turn-out for all variety sports on the campus, it has been requested that no one turn out without being granted an athletic scholarship.

There is an ample number of players who have been granted scholarships, without any more players clutching up the gymnasium and football field.

If a football player does not weigh at least 225 pounds or cannot run 100 yards in ten seconds with a football stick on, there is no use applying for a scholarship because there are too many players of this caliber already. If a basketball player is not at least six feet four inches tall, there is no use applying for an athletic scholarship. In baseball, if you have not had an offer from a major league club, you are also out of luck.

The great places placed on athletics at the School of Mines instead of scholastic work has caused too many students to try out for the teams. No more please.

Frown Abscends With Miscellaneous Fees

Numerous questions have been raised concerning the function of the miscellaneous fee collection at the beginning of each semester. This information was difficult to obtain as both the fees and the register. W. W. Brown, was missing.

Pinkerott's men, after weeks of trailing the fugitive and the fast dwindling funds, submitted the following Improved report:

Food $106.30
Transportation $227.81
Lodging $124.06
Miscellaneous $21,971.00

Tramp: "Lady, I'm hungry. Could you give me a piece of cake?"

Lady: "I ain't bread good enough."

Tramp: "Yes, ma'am, but today is my birthday!"

It's not a cheaper our people want. It's an expensive car that costs less.

Coming Events

APRIL

1—Groundbreaking ceremonies for Sub, 2:00 p.m.
2—Cook Mansion, anywhere found.
3—Faculty square dance 7:30 a.m. in Gym.
10—Cheerleading Practice for Painter & Roberts, 8:00 a.m.
14—Football field.
15—No School.
16—Crippled Community Concert by Dorn Choir, 8:00 p.m.
26—36 West Park.
19—Rain.
21—Sigma Rho B-B stacking contest, 3:30 p.m., Dorm.
24—Kangaroo Court, Library Museum Hall, all day.
29—Theta Tau picnic, Gregson Hot Springs, Public invited.

Well-Known Campus Organization Disappears

The Green Dragon Society, that in the past was especially well known for its car parties and soda working, has vanished without a trace from our campus. Alfred E. Newman, local P.T.A. agent, has been working on the theory that the frustrated members of the organization have skipped out with information and documents concerning our mysterious new SCB which has not been seen or heard of. Antonio Franchini, the living legend of Montana Mines, says with a knowing smile, "Old soldiers and sailors never die, they just don't do anything."

Two grizzled old prospectors lived together in the back country of Alaska. During the long winter night one of them began acting queer and after several months his partner called in the authorities. They had to give the man tranquilizer pills and take him away.

A policeman turned to the returning prospector and asked: "Why didn't you call us in several months ago when your friend first said he was going to turn himself into a green-eyed, yellow-bellied man?"

And the old prospector answered: "Well, for a while there I though he just might be able to do it."

The Tall and Wiry

This year's basketball team has its usual height and experience. The Goldiggers lost only two games this year, both on account of attacks of influenza. This was very unusual for a School of Mines basketball team, who very seldom lose a game during the season.

The Tall, wiry Al Rundown, 6’9”, did his usual tremendous job under the basket, averaging 24 rebounds a game. This was two less per game than his last year’s average. Al commented, "I kept hitting my head on the backboard when I jumped, as I became more careful."

Little Don Mahichough, smallest man on the team at 6’4”, had this to say about the season. "We have been. beaten in only two games, so that we became confident and lost a couple. It happens to the best, mainly."

Because of the many scores over 100 points this year, the coaches had this to say about winning so often that we became overconfident and lost a couple. It happens to the best, mainly."

Today's mathematics: The number of blasts that come from auto horns in a traffic jam is equal to the sum of the squares at the wheels.

Gym Attendance Shows Increase

The attendance at the Hillbottom Gym has increased slightly over last year. The seating capacity, 11,000, was reached many times this season. Even though the Diggers had a poor season’s record by winning twenty-nine and losing two, there was a slight increase in attendance over last year.

Besides the hardball team, the townspeople of Butte had two things to comment on about the games, the wonderful behavior of the men students and the beauty of the co-eds. It is the talk of the town and the conference about how well the young gentlemen act during the games and their sportsmanship towards the players of the opposing teams is not to be outdone by anyone. Also, the beauty of the co-eds has attracted students and townspeople alike. It has been said the School of Mines may not have quantity in co-eds, but they really have quality.

Zad Ist Der Fad

Der was a professor named Zad Ist der Fad, but he never became known outside of Butte. His name was a synonym for staying outside of Butte. Zad Ist der Fad was a man who never married.

He was a little man on a bicycle.

Zad Ist der Fad:
"I'm heartily sick," she explained, "of other people constantly "spooning my male.""

"I'm heartily sick," she explained, "of other people constantly "spooning my male.""

Naturalist: A grapecatcher who can roll a seven every time.

Page Three

Little Man on Campus

OH, HE'S OUR MOST POPULAR HISTORY TEACHER ALL RIGHT, BUT I HEAR HIS STUDENTS DON'T LEARN MUCH FROM HIM.

Transportation $227.81
Lodging $124.06
Miscellaneous $21,971.00

"Isn't brah good enough."

"Yes, ma'am, but today is my birthday!"

"It's not a cheaper our people want. It's an expensive car that costs less.

"Why didn't you call us in several months ago when your friend first said he was going to turn himself into a green-eyed, yellow-bellied mam."

"Well, for a while there I though he just might be able to do it."

"We have been beaten in only two games, so that we became confident and lost a couple. It happens to the best, mainly."

Today's mathematics: The number of blasts that come from auto horns in a traffic jam is equal to the sum of the squares at the wheels.
With our campus cut-ups:

1. Sorority sister to her steady date: "If we have a son when we're married, he'll certainly be born with a great thirst for knowledge. He'll get the knowledge from me and the thirst from you."

2. Bald-headed man: "You're sure this is a good hair tonic?"
   Clerk: "Good? We have one customer who took the cork out with his teeth and the next morning she had a mustache!"

3. Pledgee complains, "Hey, there's no ceiling in my room."
   Frat brother assures him, "That's perfectly all right. The guy upstairs doesn't walk around much."

Baby-sitter: "While you were gone, Ma'am, the baby swallowed a bug."
   Mother: "Great heavens! What did you do?"
   Baby-sitter (proudly): "Oh, I took care of him. I made him swallow some insect powder."

If it hadn't been for the Venetian blind manufacturers "It would have been curtains for all of us."

We are making a survey - We need more time to think of an answer.
To note and initial - Let's spread the responsibility for this.

UGH!

Two Indians, very close friends, were forced to separate for a few days while one went to the city on business. On his return the pilgrim rushed to his friend's tepee, rapped on the flap and asked the squaw to see his old friend Shortcake. She informed him that his friend was dead. Stunned, the visitor walked off, then returned to see if there was anything he could do.

"Is there anything I can help you with?" he asked the squaw.
"No," was the solemn response.
He then added simply, "Squaw bury Shortcake."

"Mighty nice looking woman, isn't she, Grandpa?"
"Kate: "How come your eyeballs are bulging?"
"Grandpa McCoy: "I like that kind of woman."

Kate: "Mighty nice looking woman, isn't she, Grandpa?"
"Grandpa McCoy: "If you like that kind of woman."

"Since when?"
"I like that kind of woman."

We Drank Dr. Koke

The Drink of Intellectuals

From FLUIDS LABORATORY Bottled on the Mines Campus
