**M-Day Election Of Officers**

May 6, M-Day, is a big day on the MAM campus. This is the day the students clean up the "mess" they have spent a year in making. It is also an opportunity for the students to clean and white-wash the campus. M-Day is also a big, extensive project of cleaning the "MAM" Materials for this job are being furnished by the Chamber of Commerce.

Another big feature of M-Day is the election of ASEM officers. As can be seen around the campus, there has been extensive campaigning by the organization sponsoring candidates for this election. The policy of electing officers on election day dates back to about 1099. Prior to 1992 there was very little student organization. This M-Day day is a very appropriate day for electing the student body leader for the forthcoming year. The election gave a little diversion to the work. This election policy has been adhered to over the years and has had a very good effect. In this case, it is no exception, so everyone get out and vote. Everyone, no matter who you vote for, but vote. You want a voice in government; here's your chance.

From Plans Made

On Saturday, April 14, a meeting was held to discuss plans for the Junior Class in order to discuss plans for the Junior Prom. In the absence of about 25 left, it was held by the members of the Junior Class. The chairman of the Junior Class is Don Corsen. The nominations for President, Dan Rovig, Robert Applegath, and Douglas Wadman were made to be present. Douglas Wadman was made to be the successor. The meeting was adjourned at 2:970.

**Student-Faculty Meeting Held**

On April 14, 1959 at 7:15 p.m. at the office of the Student-Faculty Meeting, the faculty and the students were present for the meeting. The purpose of the meeting was to order the joint meeting of the student body and the faculty. There were fifteen faculty members and thirty-one students were present for this meeting.

E.I.T. Examination

May 9th is the date set for all eligible men to write the Engineer in Training Examination. This examination is given in the spring of every year as the first of three requirements toward becoming a registered engineer in the State of Montana. The examination is for college seniors who are majoring in engineering. The theme of the examination is chemical, mechanical, and civil engineering.

SUB Emerges From a Maze of Red Tape

The Student Union Building has been delayed due to the difficulty involved in getting a clear title to the land. It seems that the land was originally owned by a company called "M". It was sold to a number of people. In addition, some of the lots were sold to partnerships, all of which had to be cleared. The company then sold the land to another company, and another company sold it to a third. It is still under dispute.

**Student Wives Conduct Meeting**

A meeting of the Student Wives was held on April 14, 1959 in the Student Wives Club. The meeting was called to order by Mrs. James Donovan, and the minutes were read by Mr. Robert Hoy president. The minutes were approved by the members of the Student Wives Club. The next meeting will be held on May 9th.

**Activities and Features**

The Montana School of Mines will be held on Wednesday, May 6. The annual holiday will be granted for a campus clean-up, for elections to the student council, and for a day of relaxation and fun.

**M-Day Nears H-Hour**

M-Day at Montana School of Mines, Butte, will be held on Wednesday, May 6. The annual holiday will be granted for a campus clean-up, for elections to the student council, and for a day of relaxation and fun.

**Circle K Meeting Features Talk By Earl J. Peace**

Earl J. Peace, county extension agent, addressed the Circle K Club at the School of Mines during the week. Ken Fitzpatrick, president, and chair of the meeting, was attended by 15 members.

**LITTLE MAN ON-CAMPUS**

Get A Head

I, John, wish I had been able to get a college education, it gives a man that certain edge that gets him above and apart from the average...
I should like to take this opportunity to point out something that should be quite obvious to all but evidently is not. Several professors were heard to complain about the lack of help given by the students in connection with E-day. Many students would have liked to help with E-day but had examinations the following week and in classes even on the following Monday. To my knowledge there has never been a student activity this year that someone has not given a major examination the next day. With conditions such as this, it is any wonder that the school spirit at MSM leaves much to be desired? Personally, with rare exceptions, the professors can give a little consideration in scheduling their examinations.

Theta Tau News

Inaugurating Theta Tau's professional development program, Mr. J. H. Morrison, of Helena, presented on the evening of March 9, an informative talk on the subject of Professionalism. Mr. Morrison's talk concentrated upon broad aspects of the professionalization of engineers. Noting that engineering is the design or discovery of the world, why the engineering fraternity is called Tau, and the reasons for its posthumous nature, the speaker presented the concept of the delegate engineer, representative of the professional, the professional organization, the legal aspects involved, and the procedure of membership. Mr. Morrison, along with Dean Adami, was instrumental in the motivating force behind the establishment of Montana's present engineering registration laws.

A second talk concerning Professionalism is planned for the Fall quarter. It is hoped that more students will take an interest in professionalism, as the subject is but of great concern to all, including the faculty at the campus.

Talk is cheap mostly because the supply exceeds the demand.

Gert's Guidance

Dear Aunt Gert,

It has come to the attention of a number of students (seven to be exact) that the course in self-defense taught by the Butte police is of great concern to all, including the engineering fraternity. As you may know, the University that keeps Missoula going, the College that keeps Bozeman going, and it is the College that keeps Butte people for the most part do not back up the Mines. This whole business seems to be a little consideration in scheduling their examinations. The Bank. For You

Record Review

By Lee Johns, KROW HERALD THERE... Ell Fitzgerald, "The First Lady of Song," recently seen on TV with Benny Goodman, will get added bonus of a new Gershwin LP and will also be heard singing the title tune in the new Gershwin musical "But Not For Me." Ted Hecht's big swinging band will be making its fifth tour of the U.S. next October and it can only be hoped that arrangements can be made to have him swing out this way. Incidentally, Billy May will play dates both in Bozeman and Helena some time this month.

RECOMMENDED SPINS. Ten diverse selections are heard on this latest release of the RPM label featuring the late Louie Young and the Teddy Wilson Quartet in fine arrangements. Tony Scott, former lead singer for the Ted Heath Orchestra, appears on the label's first release of 1959.

Students Ready To Stage Riot

It is reported that Prof. McAshman has been planning to prevent a riot. Early yesterday it was reported that blood had been shed but it was later established that it was only red ink.

It is reported that yesterday at the beginning of "Findling Lost Oil Walks," Prof. McAshman was about to begin lecturing without giving a pop quiz. Sidler immediately protested. "You're being unfair. Your only assignment over the weekend was to read 411 pages" protestor maintained. However, when we had finished by nine o'clock Friday night, this left us with nothing to do over the weekend. We have just finished an hour quiz and have two more coming up after this class and now you refuse to give us a pop quiz," Prof. McAshman managed to quiet the class by assigning three 100-page formal reports to be turned in on the following Monday.

Things took a turn for the worse this morning. In class he said: "If It Can Be True, We Will Measure It" he handed back handbills. Maxxow was immediately turned red in the face of the top of his voice and waving his lab book in the air. "I gave you an A on this lousy report. How can you get only an F on this?"

He voiced to his students of information (dirt) that more care and interest should be given to the occasion and promptly annulled the material that he expected to cover during the next three weeks. Another short note was that the lab "as far as the material is concerned" was in the room for this afternoon.

In the following afternoon Prof. McAshman maintained order by asking the students to design and build an instrument to measure from "here to there" without using anything except their hands. Enraged Prof. McAshman dismissed the class and now you refuse to give us a pop quiz," Prof. McAshman was heard to announce several hours ago, promising three 100-page formal reports that he had assigned to his students of information (dirt) that more care and interest should be given to the occasion and promptly annulled the material that he expected to cover during the next three weeks. Another short note was that the lab "as far as the material is concerned" was in the room for this afternoon.

THESAURUS

Thetas and Dolls

Neither rain, nor snow, nor cold of night could prevent the Thetas from having a great hour at Nine Mile on April 18. The "fellowes" were pleasantly surprised when the "fellows" decided to make a showing. The girls, on their way to Idaho from Missoula, had been called "so many sorely tried" by their brothers. The Theta Tau was making plans for next year's initiation and parties and a dance to be held as such arrangements can be made.

DOGGONE SMART

"Looks like a pretty smart dog you have there. Do you gotta say 'Are you coming or ain't you?' and he either comes or he doesn't."
Orediggers Lose Opener to Western

The Orediggers lost their first baseball game of the season by a score of 13-3 on Sunday, April 26. The game was very loosely played with numerous errors throughout the field and because of the playing condition of the field and because of the weather. The game was called three times on account of dust, rain, and wind. Coach Simonich said his infield had a hard time handling the ball because of the roughness of the field. This condition caused a number of the errors that were made. The ball game was typical of a first of the season contest, and much improvement should be shown in the forthcoming games. The Orediggers play their next games in Helena on May 5.

The Orediggers collected seven hits as compared to eleven for the Miners, Don Mahagon, 1b, and Dick Crnich each collected two hits. The only extra base hit the Miners' only extra base hit was a home run hit by Bev Watts. The Orediggers had two hits, and two errors were committed. Two errors were committed in the Orediggers' defense. The Orediggers made one double play. The latter was successful as compared to seven made by the Miners, Don Mahagon, 1b, and Dick Crnich each collected two hits. The only extra base hit the Miners' only extra base hit was a home run hit by Bev Watts. The Orediggers had two hits, and two errors were committed. Opener to Western

The Orediggers lost their first season contest, and much improve-

Tennis Team Wins

The Orediggers' tennis team of Manus Minos, 1b, and John Dreyer collected two easy wins in a meet with Western on April 26. Manus Minos played the singles match and won handily in straight sets by 6-3 and 6-0. Then Dreyer and Minos teamed up in the doubles competition and won by an identical score. The tennis future of the Orediggers this season looks very promising.

Orediggers Hold Practice

The School of Mines baseball team looks very good this season and may go all the way for a championship. The pitching must improve if the Miners are to do well, but the fielding and hitting took very well. Warren Brown, first baseman, was out of condition in the cold weather, but the pitchers have acquired some arms and have been working out with good results. The Orediggers have five returning players this year's squad, and these should greatly bolster the chances for a good season. The lettermen are Jim Donovan, Don Mahagon, Dan Trotsky, Dick Cnich, and Ken Erickson.

There are held two prac-
tice games between members of the squad this week. The first practice game lasted five in-
nings and ended in a 5-5 tie. The second game ended in a 4-4 tie over four innings. The fielding in both games was good and the hit-
ting was good for a game this early in the season. John Schul-
hauser collected two hits with Don-
avan, 2b, and McCarthy each getting one hit in the second game. Outfielder was Mike Hines, catcher; Don Mahagon, 1b; Jim Donovan, 2b; Dan Trotsky, 3b; John Schulhauser, 3b; Dick Cnich, rf; Bill McCarthy, rf; Ed Brown, rf; Manuel Munoz, cf; Gus Coolidge, rf; Darwin Ekstrom, 1b; John Driscoll; and Don Zip- perron, ss. The line-up was as follows: catcher; Mike Hines, good fielder and hitter; or Ray Mar-
day, 2b; Dan Driscoll, good hitter; 1b; Joe McCarthy, 3b; George Broos, rf; Larry Katcher, cf; Tom Perrick, p; John Ceseran1, p; Coach Simonich, 1b, and first baseman; or Bob Mc-
day, 2b; Dan Driscoll, good hitter; 1b; Joe McCarthy, 3b; George Broos, rf; Larry Katcher, cf; Tom Perrick, p; John Ceseran1, p; Coach Simonich, 1b, and first baseman; or Bob Mc-
day, 2b; Dan Driscoll, good hitter; 1b; Joe McCarthy, 3b; George Broos, rf; Larry Katcher, cf; Tom Perrick, p; John Ceseran1, p; Coach Simonich, 1b, and first baseman; or Bob Mc-

Baseball Schedule

The 1959 baseball schedule gets in full swing with Orediggers play-
ing Western in a doubleheader on April 26 at Dillon. On the follow-
ing Sunday, the Miners play in a four-team tournament in Helena. On May 10 the team plays in Anaconda for another four-team tournament. The games will be held in Water Park in Anaconda. The conference playoffs will be held on May 15 in Butte or Ana-
coda. In the playoffs the Miners will meet the winner of the play-
off between Carroll and Northern, and Western will meet the winner of the playoff between Eastern and Rocky.

There are two men from each school to compete in golf, track, and tennis this year. The conference playoffs will be held in Water Park in Anaconda. The games will start at 8:00, 10:00, and 1:00, and 3:00. The winners of the morning games will meet for the championship at 3:00 in the afternoon. If a game is tied at the end of seven innings another game is scheduled to start. The winners of the playoffs will meet the conference champions.

Midseason Report

In the championship playoffs, all games will last seven innings with the exception of the championship game which will last nine innings. The games start at 8:00, 10:00, 1:00, and 3:00. The winners of the morning games will meet for the championship at 3:00 in the afternoon. If a game is tied at the end of seven innings another game is scheduled to start. The winners of the playoffs will meet the conference champions.

Gay KraviK is a sophomore who calls Havre, Montana, home. He was graduated from Havre High School in 1957. While in high school, he was selected as a member of the National Honor Society.

During his freshman year at the School of Mines, he was elected to the Copper Guards and has served as that organization's Scribe the past year. He has participated in varsity baseball and intramural sports in his freshman and sophomore years.

Gay has been on the Honor Roll and has a B average. He plans to major in Petroleum Engineering.

Mike is a junior, majoring in Petroleum Engineering. His home town is Calgary, Alberta, Canada. After spending one year at Mount Royal Junior College, Mike came to M.S.M. in 1957, and since that time he has actively engaged in many campus activities. This year, he was elected Secretary of the junior class, and has taken an active part in the affairs of the Anderson-Carlisle Society and the Theta Tau Fraternity.

Mike has also been a keen competitor in athletics. He has played varsity hockey for two years, served as a life guard for the Student Wives Swimming Club, and has participated in intramural sports.

Mike is married, and resides with his wife, Barbara, in Rabbit Gulch.

Dick, a junior from Billings, Montana, is majoring in Petroleum Geology. He has been extremely active both in and out of the classroom. Dick has been on the honor roll every semester, and has accumulated a grade point index of 2.94. He has received the Gino Diamanti Scholarship for two years, as well as Advanced Honor Scholarships.

Outside of the classroom, Dick has participated in intramural sports, served as Duke of the Copper Guards, Hall Council delegate, Treasurer of Theta Tau Fraternity, member of the Anderson-Carlisle Society, and last year was elected as a delegate to the Student Council. Captain of this year's debate squad, he has been a varsity debater for three years.

George Grandy, a twenty-one-year-old Junior in Mineral Dressing, is from Butte. He has been on the Honor Roll every semester and has maintained a grade point index of 2.65. Based on his scholastic achievements, he was awarded three University Honor Scholarships. Furthermore, he was the recipient of a Handbook of Chemistry and Physics for Mines. Architecture was the Achievement Award for Beginning Physics in 1957-1958. During that same year he was elected to the Copper Guards. George is also active in intramural sports and an instructor in the freshman chemistry lab.

Marv, a married man, is a junior majoring in Petroleum Engineering. His home town is Great Falls, Montana.

An Army veteran, he attended Montana State College for a year, and College of Great Falls before seeing the light and enrolling at M.S.M. in 1957.

A hard worker, Marv has established an enviable record since coming to M.S.M. He has been named to honor roll for two semesters, and has actively participated in intramural sports.

He also is a member of the Anderson-Carlisle Society and the Theta Tau Fraternity.

Robert W. Hoy, Archon of the Sigma Rho fraternity, is a candidate for the office of delegate-at-large of the student body at the Mines.

Gary W. Riley, twenty-one, is a candidate for the office of president of the A.S.M. He is being sponsored by the Sigma Rho fraternity. Riley is now a junior majoring in petroleum engineering.

Candidate Riley is a native of Roundup, Montana, and a 1956 graduate of Roundup High School where he excelled in both football and basketball. While attending the Mines he has participated in varsity and intramural sports, lettering two years in varsity football, and was also a member of the 1956 track team.

Kelly Hemmert, twenty-one, is a candidate for the office of president of the A.S.M. Hemmert is now a junior majoring in petroleum engineering.

After graduating from high school in Soda Springs, Idaho, he attended Idaho State College for two semesters. He then transferred to the School of Mines. While attending the Mines he has participated in varsity and intramural sports, lettering two years in varsity football, and also was a member of the 1956 track team.

He is an active member of the Anderson-Carlisle chapter of A.I.M.E. and the College of Great Falls.

Kelly has lived in Butte for three years.

David G. Rasmussen, twenty-four, is seeking election to the office of delegate-at-large of the A.S.M.

Rasmussen, who is a junior, is majoring in geophysical engineering with the mining option. He has been a member of Copper Guards and has participated in intramural sports while attending the Mines. He is currently president of the Mineral club, an office he has held for the past two years. Also included in his list of activities is an active membership in the Anderson-Carlisle Society and in the Sigma Rho fraternity.

Dave is a native of Missoula, Montana, and a 1954 graduate of Missoula County High School.
