Bill Receives NROTC Scholarship

Bob Bill, School of Mines sophomore, recently received the Naval Reserve Officers Training Corps Scholarship. The scholarship is based on national competition and has a value of between $5,000 and $8,000. A four-hour written exam was taken in December and the physical was given in February, 1961. Bob was also interviewed by two Naval officers. The scholarship will go into effect next year. The scholarship also provides one year of graduate study and upon receiving a commission on graduation, Bob will have to serve four years in the Navy.

From Long Beach, California, Bob attended Long Beach State College for one semester and he has been at the School of Mines for one-and-one-half years. He plans to enter Oregon State next year and take up oceanography. At Montana College for one semester and he will go into effect next year. The scholarship was taken in December and the physical was given in February, 1961. Bob was also interviewed by two Naval officers. The scholarship will go into effect next year. The scholarship also provides one year of graduate study and upon receiving a commission on graduation, Bob will have to serve four years in the Navy.

Mines Student Speaks on Africa

Friday night, May 5, in the Library-Museum building the International Club featured Chuk Ekhuomi from Nigeria at a public meeting. A question and answer period followed, and refreshments were served.

Chuk spoke about the Watussi and Nigerian customs, social groups, castes and slaves. In Nigeria, where politics is synonomy.

McGlashan Gets Post With Research Unit

Donald W. McGlashan, research professor and head of the department of mineral dressing at Montana School of Mines, has accepted appointment to the Highway Research Board of the National Academy of Sciences.

Professor McGlashan has received this honor in recognition of his many contributions to fundamental research in the materials used in highway construction. His appointment is to a new committee (of the Bituminous Division) titled "Characterization of Aggregates and Fillers for Bituminous Construction".

The National Academy of Sciences—National Research Council is a private, nonprofit organization of scientists, dedicated to the furtherance of science and to its use for general welfare. President Lincoln, in 1863, approved the Academy's charter. The National Research Council came into existence in 1916 at the request of President Wilson. The Highway Research Board, created in 1920, is an agency of the Division of Engineering and Industrial Research of the National Research Council.

Faculty Fetes Seniors

Sunday, May 7, from 3 to 5 in the lounge, the annual Seniors Tea will be held at the President's residence. The afternoon social event is sponsored by the Latin Society.

Some of the activities of M-Day. The Kangaroo Court, Picnic, and Dance Highlighted

Kangaroo Court, Picnic, and Dance Highlighted

The court judges were Gay Kravik, Robert Koch, and Syd Brown, whereas the attorneys for the defense were Malcolm McKeen, the layiff was Pete Green, and the jury consisted of the rest of the Senior Class. Faculty members tried for crimes were: Dr. Fred N. Earl, Professor William A. Vose, Professor Gustav Hahn, Jr., Professor Richard N. Purp. The highlight of the Kangaroo Court was the sentence given to Dick Rovig. He was sentenced to ride around the gymnasium on a bicycle with a helmet on his head. At 9:30 the Copper Guards lit flares on the "M", highlighting the activities of M-Day.

The day came to a climax with the annual M-Day dance sponsored by the Copper Guards in the Copper Lounge. Over a hundred copper sprites danced to the music of the local rhythm. The Lounge was decorated with the school colors of orange and green. Streamers decorated the ceiling and orange and green "M's" were placed on the side walls. A large Copper Guard emblem adorned the front window and a large M decorated the other side of the hall.

Job Johnson and Crnich to Head Student Council

In the election held on M-Day, May 5, Bob Johnson, a junior from Anaconda and a member of Sigma Rho, was selected to be a delegate to the Student Council.

22—Civic Wives Bridge Club, Coed Room, 7:30 p.m.
25—Safety Code Hearing, Museum Hall, 10 p.m.
26—Junior Prom.
27—Baseball, MSU at Missoula.
Another Open Letter

On April 21, the Amplifier ran an "Open Letter to the Editor of the Montana Standard-Post," on the editorial page. This communication is highly critical of a certain article in the subject newspaper. It so happens that I am in complete agreement with the editorial (April 17, Standard-Post), and believe my material (open letter) failed to grasp its meaning. Further, there is nothing of the open opinion of the final answer, and the need for the necessarily of the need, and the good which would result, and only then, take up the banner of revolution.

Oreidgers Split BRace With Western
Mines Defeats Western Again
Lose To Carroll

On Saturday, April 29, the School of Mines baseball team defeated Western Montana 8-4 and lost to the Saints from Carroll 10-4. Both games were conference games and the Mines now has a +2 record for the conference.

Carroll drew 10 walks and had four batters hit by pitches and had only two hits in defeating the Miners 10-4. Stanaway received credit for the victory and Dave Bennett pitched face him. Slavacek singled to score and was thrown out. Bennett pitched in relief for the Miners.

Once again receiving strong pitching for Pete Gross, the Oreidgers bounced from behind to a 5-4 decision over the Bulldogs. In the fourth, Western bunched 5 hits and four runs for a 4-1 lead.

The Mines then picked up 2 runs in both the fifth and sixth innings to secure the winning margin. With two outs in the sixth, Gross reached second and then Dan Trbovich hit a double to score him. Frank Quilici, third baseman, then flied to drive in the winning run. Quilici was outstanding in the fielding department for the day.

Carroll 0 0 0 0 0 1--5 5 2
Western
The Mines opened their baseball schedule by splitting a double-header with the Bulldogs of Western. The Bulldogs took the first game 5-2 and the Oreidgers bounced back to take the second by 10-4. The first game, however, was more important because it was a conference game.

In a pitching duel between Nicholson of Dillon and Pete Gross of the Miners, the only real difference for Western. Both men pitched seven innings.

In Western's first Brundage singled, Harrington walked and got to second on an error and after Gross walked the next two men to face him, Slavacek singled to score both Harrington and Brundage. Erwin got the third Bulldog run in the second on a single, steal and single by pitcher Nicholson.

A passed ball allowed both singles by Dan Trbovich and Mike Mines gave the Oreidgers another run in the fourth.

In the third, a single by Dick Crench and a double by pitcher Gross got the Oreidgers a run in the third. A single by Dick Crench and a double by pitcher Gross got the Oreidgers another run in the fourth.

The Miners scored five runs in the first two innings of the nightcap en route to their 5-2 decision, with brilliant fielding by third baseman Frank Quilici making Kibbee's mound chore easier.

The Miners reached second and then Dan Trbovich hit a double to score him. Frank Quilici, third baseman, then flied to drive in the winning run. Quilici was outstanding in the fielding department for the day.

OECF Fellowships Announced by NSF

The organization for European Economic Cooperation (O.E.C.F.) and the National Science Foundation in the United States have announced the award of 10 O.E.C.F. Senior Visiting Fellowships for the academic year 1964-1965. Each fellowship is for the academic year and includes a monthly stipend of $500 for the fellow and $1500 for the institution which each home institution designates.

The National Science Foundation administers the fellowship program for United States citizens and other scientists who will study in O.E.C.F. countries, and several will visit more than one country. They will work in Austria, Denmark, France, the Federal Republic of Germany, Italy, the Netherlands, Norway, Portugal, Sweden, Switzerland and the United Kingdom. Scientists from O.E.C.F. countries and institutions in the United States under this program, which is supported by O.E.C.F. and the United States government, will be aided in their graduate study in the physical sciences, including a 12-month stipend by not more than $5000 per year. In lieu of two years' residence, institutions will receive a predetermined and standardized cost of education allowance for each fellow.

Teota Tau Wins
The Intramural Football Championship was captured by Teota Tau I with Sigma Rho II as runnerup. Tau I was composed of the following men: Tom Liebsch, runnerup. Tau I was composed of the following men: Tom Liebsch, Bill Bayliff, Jim Conway, Pete Gross, Gay Kravik, Mike Hines, Nicholson and the social sciences. Fellows were selected from 3241 applicants representing 47 states and the District of Columbia.

Teota Tau I with Sigma Rho II, the champion, will receive a stipend ranging from $50 to $75 for the social sciences. Fellows were selected from 3241 applicants representing 47 states and the District of Columbia.

Teota Tau I with Sigma Rho II, the champion, will receive a stipend ranging from $50 to $75 for the physical sciences, including a 12-month stipend by not more than $800 per year. In lieu of two years' residence, institutions will receive a predetermined and standardized cost of education allowance for each fellow.

McPherson Speaks

Mr. Roger J. McPherson, a graduate of the geology department recently presented a seminar discussion concerning the Metavolcanic Belt East of Lake Athabaska, Saskatchewan.

The general location of this area is in the southeast corner of the province of Saskatchewan, some 200 miles north of the border of the United States and Canada. Approximately 4,000 square miles of territory were covered in this detailed survey.

The rocks are volcanic rocks that have been changed or metamorphosed by extremely high temperatures. Their texture, mineral content, and structural character were studied in the field by Mr. McPherson last summer while he was working for the Canadian government. This fall and winter he made numerouspetrographic studies of the rocks and other rocks that comprise this metavolcanic belt.

Two sets of faults trend generally NW-SE and NE-SW. The NW-SE trend causes the already structurally complex picture in the area to be more complicated.

Constitutionality of Federal Aid Discussed

At the meeting of the Knox-Weirmore-Morse, chairman of the Subcommission on Education of the Commission on Labor and Public Welfare, the legal staff of the Department of Labor and Public Welfare, in consultation with attorneys of the Department of Justice, has prepared a comprehensive discussion of certain aspects of the grants to Canada from the Federal government. This major portion of the discussion deals with the constitutional issues involved in the Federal-Aid to Education program. The major part of this document deals with the constitutionality of low-interest construction loans by the Federal government to sectarian elementary and secondary schools.

Kelly Good for Credit

Professor Frank H. Kelly was elected president of the first parish credit union Tuesday evening, March 28, at the New American Credit Union in Montana. Miners Speak to Club on Canada

A recital of current economic conditions in Canada was presented April 23 to the South Butler Kiwanis Club by Marion Mitchell of Britannia Finance in Vancouver. The session was attended by a student at the Montana School of Mines.

Joe Kranken, president, and Mitchell was introduced by Leon Deco as program chairman, Mitchell covered the economic aspects and presented a letter from the observance of Canada Goodwill in the Montana School of Mines.

He told his audience Canada now has three-fourths of its labor force unemployed, compared with 5 percent in the United States. Since Canada is a heavy agricultural producer, the depression has been trying to find new world markets for its farm surpluses, he said.

Mitchell reported that Canada has little investment capital of its own and must depend on this territory for its farm surpluses. He said Mitchell attributed this to good weather, the absence of the depression in the United States, and the fact that Canada has a larger labor force. He said Mitchell believes that the need for additional college facilities continues and is growing.

Continued Support for Education Discussed

At the request of Senator Wayne Morse, chairman of the Subcommittee on Education of the Commission on Labor and Public Welfare, the legal staff of the Department of Labor and Public Welfare, in consultation with attorneys of the Department of Justice, has prepared a comprehensive discussion of certain aspects of the grants to Canada from the Federal government. This major portion of the discussion deals with the constitutionality of low-interest construction loans by the Federal government to sectarian elementary and secondary schools.

The major part of this document deals with the constitutionality of low-interest construction loans by the Federal government to sectarian elementary and secondary schools. The authors of the memorandum are members of the legal staff and a bank board of directors, and the memorandum includes a discussion of the legal aspects of the proposal.

A credit union operates to re- ceive savings of its members and to make low-cost loans to its members. The credit union is supported by member contributions and by interest earned on loans to members.

Each federal credit union has a board of directors, selected by the board, a credit committee to review the operations of the credit union, and a staff to operate the credit union.
