Applications Due November 8

The Anaconda Company is offering two undergraduate engineering scholarships to students who have earned $1,500 each, $1,000 to the student and $500 to the maintenance of the family. Scholarships are for persons of male and female sex to aid members of the Anaconda Company or its subsidiaries, who are residents of Montana.

Applicants must have good standing in college, be majoring in engineering leading to a degree related to the mining industry, and be in need of assistance to obtain a college education.

Applications for these scholarships will be received up to November 8, 1961, by the Montana School of Mines Scholarship Department. They will then be reviewed and approved by the Anaconda Company.

Wesleyan's Organize

On Sunday, October 15, 1961, Montana Wesleyan College sponsored a dinner for all the members of the Wesleyan Students Organization of the Montana School of Mines. Invitations were sent to all students who designated aMethodist preference on the enrollment cards.

A wonderful dinner was served by the college staff and church. Following the dinner, Betsy Pyser and Jim Flaherty were installed as new officers. Reverend Vick spoke to those who were present.

A Wesley gym will be held on Tuesday evenings for any interested students. The first meeting will be held on Sunday, October 22, at the church.

Seniors Attend Geology Camp

For the third time in a row the Geology department held its annual summer field camp in the Upper Gallatin Valley. Field work began with a series of short trips to the hydrogeologic sections of Palouse and Mesdicsi anticlinal sections near camp headquarters. The field work was followed by three phase mapping of rock units, design and test new methods.

Recruitment, those who were non-scientists, was provided by a demonstration of the operation of the Leica microscope and the photographing equipment used in the students who attended the camp.

Unlike past camps, this year's camp was not hampered by fair weather. Although cloudiness had anticipated the possibility of poor weather, the natural conditions had never materialized in such quantities as to become a problem. The group enjoyed the full range of weatherman's art: rain, snow, hail, and frigid winds. If nothing else, or something, was a factor in field operations roughly four days.

Officers Elected Juniors Not on Ball

The election for Freshman Class officers was held Friday, October 6. New officers are being elected by those students who have the fourth quarter of the 1961-62 school year, and will bemen and women students.

The Sophomore Class election will be held on Friday, October 12. Sophomore class officers are Dave Farnsworth, vice president; and Jim Ball, secretary-treasurer. The advisor for the Sophomore class is Professor Chance.

The Senior class election was held on Thursday, October 11. Paul Fossey was voted president; Al Hulting, vice president; and Bob Newman, secretary-treasurer. The advisor for the Sophomore class is Professor McElroy.

Newman Club Elects Officers

The Newman Club held its third meeting on October 6, 1961. Election of officers for the Newman Club took place at the meeting. The following were chosen: president, Father Black; vice-president, Ken Arns; treasurer, Dan Hove; and secretary, Suzanne Burns.

Father Black is Chaplain and Professor John G. McCaslin is the Director of Newman Club.

Newman club meetings are held each Monday at 7:00 to 8:00 p.m. Any interested student, Catholic or Protestant, is invited to attend the meetings.

Sigma Rho Organizes

Sigma Rho Fraternity held its first meeting of the year on Friday, September 25, at the Goldwell. Officers were elected, arranged. Arrangements were made for the selection of members and new members of the Newman Club, plans being discussed for the various speakers giving their views on Religion and humanity and Newman Club plans, the place of religion in education.

Newman Club meetings are held each Monday at 7:00 to 8:00 p.m. Any interested student, Catholic or Protestant, is invited to attend the meetings.

Sigma Rho plans to sponsor and support events in which campus and community officers actively engaged in activities sponsored by the Newman Club. In general, be directed toward engineering students, but should cover all departments of special interest to the Newman Club.

The Fraternity also plans a well-rounded social calendar, which includes parties, dances, and picnics.

A resolution was passed expressing the Fraternity's sympathy for their brother Professor George for the illness, who is ill.

Let's burn it this year and Carroll, too!

The main order of business at the M-Club held October 10, in the Copper Lounge was this year's homecoming celebration.

The homecoming festivities will begin with the election of the Queen on October 14, from 10 a.m. to 4 p.m., in the Copper Lounge. The members of the student body will vote for the candidate of their choice. Nine coast are selected by the M-Club to run for homecoming queen. The nine girls are as follows: Brenda Brinkley, Susie Beamer, Carol Danon, Pauline Kansberg, Carol Grif, Margaret McClung, Margaret Millard, and Sylvia White.

The celebration will be off to a grand start with a boogie held on Leonard Field the night before the games.

Saturday will be the highlight of the game with a parade through downtown Butte starting Saturday morning at 10:30. At 1:30 the game will be held at Nanache Stadium with the Mines playing against Carous Saints. The queen candidates will be introduced at the half time of the game.

Also, on Saturday, the queen and four princesses will be announced and Saturday night from 9:00 to 12:00 the homecoming dance will be held in the Copper Lounge.

H.S. Letters Taboo

The practice of wearing high school sweaters and jackets with letters on them is prohibited at all Montana colleges. The M-Club requests that this rule be followed on this campus. If anyone wishes to wear lettersmen jackets it is suggested he earn one himself from MSM.

ASSM Makes Appropriations

The first meeting of the A.S.S.M. Student Council was held on October 4, 1961, in Room 109 of the Copper Lounge. President of the student body, Robert Johnson, provided opening remarks. The most important order of business was the approvals of student funds. This first council meeting was held on Tuesday, October 3, at 7:00 p.m. The following organizations requested funds for the year which were approved by the Student Council.

| Organization Requested Granted |
|-----------------------------|----------------|
| Football $2,775.00          |                 |
| Basketball 1,705.00         |                 |
| Minor Sports 1,500.00       |                 |
| Anderson-Carlisle 75.00     |                 |
| Coed Club 275.00            |                 |
| Junior Class 150.00         |                 |
| McClub 200.00               |                 |
| Debate 300.00               |                 |
| Amplifier 1,500.00          |                 |
| Dramatics 130.00            |                 |
| Music Club 400.00           |                 |
| International Club 175.00   |                 |
| Copper Guard 125.00         |                 |
| Photo Club 300.00           |                 |
| Circle-K Club 150.00        |                 |
| Golf Club 100.00            |                 |
| Newman Club 500.00          |                 |
| Special Days 200.00         |                 |
| Total $9,800.00             |                 |

The remainder of the $9,800.00 to be appropriated went into the general fund of the A.S.S.M.

Other business taken up by the council was a discussion of buying plaques in memory of the students who lost their lives in the student at the close of last section. These students were then Tav Croom, Bob McCartht, and Alan Gray. Mike Keegan was appointed to look into the purchase of such plaques.

Dick Crunick was appointed as a student council representative to the Disciplinary Committee. His job will be to represent the students living off campus. Mike Keegan is the other student representative and represents students living on campus.

It was announced that progress is being made on the installation of a stereo in the Copper Lounge.

The Anderson-Carlisle Society was given permission to display a banner in the Copper Lounge. This banner is in connection with the membership drive being conducted by the society.

Interview Schedule for October to a local mineral location where they may obtain one of the companies for presentation to the representative of the mine. The mine company will send the representative to the meeting of the group.

The Honey Car is written by the students of the Montana School of Mines for the students of the Montana School of Mines. The only way this paper can become what the Honey Car writers think it should be is through cooperation in total student participation, both engineering and general students. By student participation, we mean any student who desires to contribute. It is not necessary for a student to belong to a class or student body, to do so; in fact, he is encouraged and urged to do so. He needs only to write and place it in the suggestions box in the Student Union West, pay for his own copy, or his own copy, and if he so desires, the Honey Car should have something of interest to all students. So the Honey Car serves its purpose, if, and only if, we get this type of participation.

THE STAFF

Letter to the Editor are always welcome!

The first meeting of the AIME for the year was conducted by President Bill Worley, on October 5, in room 109 of the Copperhead Building. The object of the meeting was to reorganize committees that were formed last spring, and to discuss the possibility of having a form of E Day again this year. Also discussed was the possibility of forming a membership in the society. President Worley expressed the hope that every serious minded engineering student on campus should contribute an article that he feels is of interest to the student body, to do so; in fact, he is encouraged and urged to do so. He needs only to write and place it in the suggestions box in the Student Union West, pay for his own copy, or his own copy, and if he so desires, the Honey Car should have something of interest to all students. So the Honey Car serves its purpose, if, and only if, we get this type of participation.

Interview Schedules Are Available

Starting Wednesday, interview schedules will be available at the end of the month in the placement office and bulletin board notices will also be posted indicating such interviews. Interested students may sign up for one-half hour interviews, complete the company data sheets, and sign up to obtain company literature. We would like to request that students sign up early and complete the company data sheets by 5:00 p.m. the day preceding the interview so that pertinent information may be compiled for presentation to the representative upon their arrival. It is also requested that pictures be furnished, if possible, and that we so place our forms that the interviews may be completed. The placement forms have been revised and will be given to the company representatives along with the interview schedules. At any time, students apply for positions with companies other than those interviewed, they may obtain one of the completed forms at the placement office. Interview schedule for October are found on page 4.

The real music lover is the one who never applauds when her husband comes home singing at 3 o'clock in the morning.

Coghnall to Head Glee Club

The first meeting of the AIME for the year was held on February 26, 1961, in the Copperhead Building. The object of the meeting was to reorganize committees that were formed last spring, and to discuss the possibility of having a form of E Day again this year. Also discussed was the possibility of forming a membership in the society. President Worley expressed the hope that every serious minded engineering student on campus should contribute an article that he feels is of interest to the student body, to do so; in fact, he is encouraged and urged to do so. He needs only to write and place it in the suggestions box in the Student Union West, pay for his own copy, or his own copy, and if he so desires, the Honey Car should have something of interest to all students. So the Honey Car serves its purpose, if, and only if, we get this type of participation.

The first meeting of the 1961-62 Glee Club was held Thursday, February 4, in the Library Museum Hall. Professor Ralph St. John, Glee Club President, was present to help organize the club. The main order of business was the election of officers for the current year. Bill Coghnall, junior in me-

...
Orediggers Dump Debut

The 1961 football season opened on a sour note at Montana School of Mines. Western Montana School of Education spilled the Miners 21-6 to start off the banquet in a losing cause to Rocky Mountain College of Billings. The final score looked 25-6, but this did not show the true picture of the game. The coordination and effort of the offense showed a 100 per cent improvement over the Western game of a week ago. The playing of Miner George Sever and Ray Kotow was outstanding in the Miners display. Rocky took first blood in the second quarter as an intercepted pass and Dan Nioi1 plunged over for the TD from the Mines one-yard line and at the end of the half was Rocky 7 and Mines 0.

The game continued as one hard fought battle until the fourth quarter when the Miners broke into the scoring column for the first time this year. It was George Sever who rapped the ball on the majority of carries leading to the TD and rightly so, he was he that scored the first.

Griffith, Sue Reemer, Brenda Brophy, and Marcia McClellan, Voting was held Thursday, October 19, and the results announced at Homecoming festivities.

Miners Dig In

MSM showed some of that hidden potential on Saturday as they scored their first touchdown in a losing cause to Rocky Mountain College of Billings. The final score was 25-6, but this did not show the true picture of the game. The coordination and effort of the offense showed a 100 per cent improvement over the Western game of a week ago. The playing of Miner George Sever and Ray Kotow was outstanding in the Miners display. Rocky took first blood in the second quarter as an intercepted pass and Dan Nioi1 plunged over for the TD from the Mines one-yard line and at the end of the half was Rocky 7 and Mines 0.

Miners Get Swamped.

Football Outlook '61

by GARY HAUDER

Sports Editor

Football season is here once again, and MSM has its usualschedule of events to look forward to. Many people enjoy these lovely autumn days, but football has problems.

As a member of the league standards, MSM has its usual inexperienced team. But maybe things aren’t as gloomy as they might seem, for there is a chance that MSM might win a game or two this season.

The team as usual is dominated by players who are the superstars of the team. There is a dull side because there will be thirteen returning lettermen out of a squad of thirty-five. The squad of “Iron Men” will stand up against the “Paul Men” of our rivals. These fellows should be applauded and supported to the fullest extent if there are the “guts” to get out and fight for your school. Our school support is not as strong as it should be.

This support them and attend the games. You’ll definitely see some action that will show you that our team has potential even though they don’t end up on the high side every game.

Coach Simonich said, “It’s too easy to tell what kind of a team we’ll have with only two weeks of practice under our belts. We will know better after our game Saturday against the Bulldogs. We’ve all been working hard for the opener. We have a good squad out—I only hope that they will remain out and not drop off as they have done the past two years.”

As for the squad possibilities, one could tell what the Coach Simonich group is going to be the year— to win at least one game and maybe a few more than that. Simonich also commented that he would have men enough and have not to use “90 minute men of the past years.”

Mines, Martin White, and Earl McCarthy are not eligible to play this year. The reason is because of the Eligibility Rule. Another prospective player, Gary Evans, is not eligible. This is only one out of last year’s players who are Bob LeCoure, QB; George Calble. Gone from last year’s team are Senior Dick Crnich, Junior O’Brien, John Quillici, Dave Sanders, Pete Atkinson, Brad Bilyeu, Jerry McCarthy, and Dan Rovig, tackles.

Returnees in the line are Charles Olsen, Bill Tiddy, and Al Martin.

Those coming out for the first time are Senior Dick Crnich, Junior for Frank Panisko, Sophomore Frank Quillich, Freshmen Darrel Anderson, Fred McNeil, Paul J. Linde, and Bob Malekiss. Paul Miller, S t a n Miller, Mike Love, George Veh, Ed Simonich, Bob Smith, Dick Thomas, Jack Walsh, Bob Archibald, and Bob Robinson.

Imaginations To Begin

This year there will be new emblems on the intramural program offered here at MSM. The season will be placed upon “Fun for Everyone.” Another anyone who wants to participate is invited to sign the lists posted on the bulletin board in the gym. Teams wishing to participate should present their rosters to Coach Simonich.

The sports available are tennis, swimming, wrestling, touch football, basketball, volleyball, ping pong, and handball. Being offered here at MSM. The accent will be placed upon “Fun for Everyone.” Anyone who wants to participate is invited to sign the lists posted on the bulletin board in the gym. Teams wishing to participate should present their rosters to Coach Simonich.

Applications Available

For NORTC Competition

Applications are now available for the Navy's annual competitive examination for its nation-wide Regular NORTC college training program, according to a recent announcement by the Department of the Navy. The special examination is scheduled for December 9 and is open to all high school seniors and graduates who can qualify.

The deadline date for receipt of applications is November 17. Applications are available from the nearest U. S. Navy Recruiting Station and from high school principals and counselors.

Campus Off-Beats

by Basil Pincovich

How’s she goin’, Pard? My name is Basil Pincovich (pseudonym for my true name and identity of distinction); I am coming to you in the “Amplifier” because my recent journalistic efforts, published under a pseudo-nym, were found to be illegal according to school policy. I wasn’t aware that all publications on campus had to be approved—but others were aware. My apologies to anyone offended.

At any rate I intend to wander back and forth over recent campus events, and it seems to me that any of this column seems disjointed, remember that it is the product of a rambling mind.

According to the 1960-1961 School of Mines catalogue, “The building program conforms with the plan of the campus. Arnold and Van House. The buildings are substantially built and of pleasing design,” I wonder if the author of this passage overlooked the building in the center of our campus. I refer to the house and lot on Marquis’s immediate left. The sloughed off retaining walls are swallowting public sidewalks; and furthermore the report omission of house and grounds leaves one a poor first impression of the School of Mines campus.

My congratulations to the maintenance men! They did a nice job on the Copper Lounge flooor this summer.—nine gallons of varnish and three gallons of wax (also as none of the ladies may well—a man—five cans of wax) dose....

I was at the opening meeting of the Anderson-Carlisle Society (a mightly fine organization for engi-

neering students to belong to) and they are very interested, able and willing to help the students in their engineering work. I hear at Montana School of Mines. I think every engineer on campus should get behind this organization, and extend their good to the student in greater heights.

According to figures gathered by The Montana Citizen" every man, woman, and child in the state of Montana, consumes a million gallons of beer during the fiscal year 1960. What a happy people we are.

Overheard at the football game:

Speaking of football reminds me that: we have three lovely, new cheerleaders in the near horizon; so I think I don’t belong at our football games. I hope to be able to talk to you again real soon.

I refer to the house and lot on Marquis’s immediate left.

THE WOMAN WHO SEWED

Well, Pard, I’ve a few tests looming in the near horizon; so I think I don’t belong at our football games. I hope to be able to talk to you again real soon.

The Registration Day Dance, the lounge was decorated with green and orange streamers in keeping with the school colors. Orange pineapple punch was served throughout the evening. The snack bar was open for the first time and from high school principals and counselors.

Copper Guards Sponsor Dance

The Registration Day Dance, held in the main lounge of the Student Union Building on September 25, was a great success. The music was provided by Ed Bowman’s Band for a capacity crowd. The dance was sponsored by the Copper Guard, an honorary sophomore men’s society. The dance served a two-fold purpose. It gave the new students an opportunity to get acquainted and old friends to get together, as well as for every one to have a period of relaxation before starting academic work.

The lounge was decorated with green and orange streamers in keeping with the school colors. Orange pineapple punch was served throughout the evening. The snack bar was open for the first two hours of the dance to make it possible to obtain cake, candy bars, and hamburgers. All the decorations and details were handled by members of the Copper Guard under the chairmanship of Jay Heyppa, Duke of the Copper Guards.

Hall Council to Promote Better Beds

At the first meeting of the Hall Council, the Hall Council was urged, by the students, to take action concerning the bad situation in the dormitory.

The bunks were described as being in poor condition, and were considered to be “backbreakers.” Hall Council leader, Cam Brown, announced a petition might be passed around the dormitory for signatures of the complaining students.

The duties of the Hall Council were also explained by Brown. He stated the members set as representatives for the students in case of disciplinary action. Also the Hall Council maintains order in the dormitory. Another duty of the Hall Council is to keep the washing machines and television set in working condition.

A baby saddle was happily swimming in the ocean near her mother when she saw her first submarine and was terribly frightened.

“Don’t worry, don’t,” her mother reassured, “it’s just a man-o’-war.”

I hear that you just had a new issue of the “Amplifier.”

LITTLE MAN ON CAMPUS

… continues...
