Vol. VIII No. 4 Wednesday, December 13, 1961

Six senior students from Montana School of Mines have been nominated for inclusion in the 1961-62 edition of Who's Who Among Students in American Universities and Colleges. According to D. C. McAfful, Dean of the College:

The six are Peter H. Atkinson, Vancouver, B. C.; Allan P. Herring, McCall, Idaho; Robert E. Johnson, Anaconda; Francis C. Larvie, Walkerville; William C. Pickard, Miles City; and George L. Vivian, Butte.

Mr. Atkinson is majoring in mining engineering at Montana School of Mines. He has been active in the Copper Guards, in both football and hockey, and is now regent at Theta Tau fraternity.

Mr. Johnson is majoring in mining engineering at Montana School of Mines. He has been active in the Copper Guards, in both football and hockey, and is now regent at Theta Tau fraternity.

Mr. Herring is majoring in mining engineering at Montana School of Mines. He has been active in the Copper Guards, in both football and hockey, and is now regent at Theta Tau fraternity.

Mr. Larvie is majoring in mining engineering at Montana School of Mines. He has been active in the Copper Guards, in both football and hockey, and is now regent at Theta Tau fraternity.

Mr. Pickard is majoring in mining engineering at Montana School of Mines. He has been active in the Copper Guards, in both football and hockey, and is now regent at Theta Tau fraternity.

Mr. Vivian is majoring in mining engineering at Montana School of Mines. He has been active in the Copper Guards, in both football and hockey, and is now regent at Theta Tau fraternity.

Mr. Herring is the son of Mr. and Mrs. John P. Herring, Jr., of Route 2, Box 362 G, McKinleyville, Oregon.

Mr. Johnson is the son of Mr. and Mrs. John R. Johnson of 120 Howe Street, Butte, Montana. Mr. Johnson was graduated from Anaconda Public High School.

Mr. Herring is majoring in metallurgical engineering at Montana School of Mines where he is president of the student council. A past officer in both Sigma Rho fraternity and the Anderson-Carriere Technical Society, he is a member of the American Society of Metals.

Mr. Johnson has received three Montana School of Mines Honor Scholarships, the American Smelting and Refining Company Scholarship, and the Anaconda Company Scholarship twice.

Mr. Johnson has worked for the B. A. and P. Railroad, and the Anaconda Company since 1955 and later a Junior Research Engineer. During the summer of 1959 he served as student instructor in plane surveying at Montana School of Mines.

Mr. Larvie, son of Mr. and Mrs. Alex Larvie of 13 Bennett Street, Walkerville, is a senior in mining engineering. While at Montana School of Mines he has participated actively in Sigma Rho (fraternity), the Anaconda Audubon Society, basketball and volleyball. Mr. Larvie has completed five years of service with the United States Navy, has been the recipient of the Gardner-Denver Scholarship for 1959 and of an Advanced Honor Scholarship, the Sigma Delt fraternity, for work in mining of the Anderson-Carriere Technical Society.

Christmas Dance to Be Held Dec. 14

The Coed Christmas Dance will be held Thursday night, December 14, in the Copper Lounge from 9:00 to 12:00. The theme of the dance will be "Snowflake Serenade." A huge tree will be decorated in the Lounge and the rest of the decorations will carry out the theme with snowflakes and streamers.

Ed Bowman's band will provide the music for the dance and refreshments will be provided. The cords went out for the tree last weekend.

Committees for the dance are as follows:

Decoration: Linda Shifty, chairman; Beverly Phillips and Deanna Haverkamp.

Signs: Paulette Kanellosberg, chairman; Marjil Millard and Anne Burns, Jennie Parker, Carol Griffith and Amy Schuett.

Clean-up: Carol Dunston, chairman; Kari Keup and Sue Beamer.

Refreshments: Marjil Millard and Betty Pryor.

Invitations: Marcia McClung, chairman; Sylvia White, Mary Herring, and Peggy Brown.

It's still not too late to get a date so let's get out and support this school function and have some fun before vacation!

Don't Forget to Vote

Sigma Rho-Coed Club Give Christmas Party

Christmas is a time to share one's happiness with others. Some may say it's better to give than to receive, especially when little children are involved. This is the spirit in mind, the Sigma Rho fraternity, the help of the Coed Club will give a Christmas party for some forty Butte children, on Dec. 14 in the Copper Lounge.

The festivities for the children will begin when they are picked up by the members of the fraternity and brought to the School of Mines campus. The children will be made to feel like little princesses entertained until the program begins at 3 p.m. for the program, the children will be given a Christmas present wrapped by the Coed Club. The presents for the children were donated by the Alpha Phi and the Coed Club. The Coeds will donate cookies and make decorative arrangements for the party. All members of the fraternity will cooperate to make the party a complete success. The fraternity hopes the children will enjoy the party as much as the fraternity enjoy planning and preparing the party.

Christmas play, Santa Claus will appear and present the children with gifts. After this, refreshments will be served to the children. The party will be held at the representative house by the members of the fraternity.

President, ASSM

The general attitude of the students at MSM is appalling. There is little or no respect for the faculty and staff. In many cases, students are observed to be badmouthing faculty members and others in public forums.

One look at the restroom walls in the Lounge covered with smutty pictures and sayings would certainly make a fine young lady blush. Each time she scans over the walls she finds that another picture has been added. It is little wonder that some of our nurses are not pleased with school administration.

This summer, the school administration proposed that the Copper Lounge take steps to prevent this type of activity. They felt that the Lounge was a source of offense to others and that the student body was responsible for the filth and destruction. They felt that they were not responsible for the filth.

The lounge is a source of offense to others. It is one of the main reasons that people do not want to come to the Copper Lounge. Marlboro—
campus favorite in all 50 states!

...It's a top seller at colleges from U.S.C. to Yale
...and 1st in the Flip-Top box in every single state

If you think you're seeing more Marlboro men lately, you're right. More than 25,000 smokers all over the country are switching to Marlboro every month!

You'll know why when you try them.

Marlboro is the filter cigarette with the unfiltered taste. The secret of the flavor is the famous Marlboro recipe from Richmond, Virginia... and the pure white Selectrate filter that goes with it.

Try Marlboro and judge for yourself. On or off campus, you get a lot to like.

Friday, December 1

Well, it was a cool evening, not much different than any other night in Butte, but by the end of the evening it became very special because MSM won its opening basketball game of the season. The game came over from our friends up north, the University of Alberta, from Calgary. The final score was 69-58, and if that is any indication of what's in store for the rest of the season, we may have our first winning basketball season in many a year.

The Mines played brilliant ball from the opening to the closing whistle. For the first minute or two of play, the score shifted back and forth. With the score 5-3 in favor of the Mines, the tide shifted, and from that point on the Mines had complete control of the game. 

The Mines led from that second until the end of the game and never faltered in the lead. During the first half, the Mines scored up to the margin of six points, and at the end of the first half, MSM was leading by 24-23 over the University of Alberta. 

This game was special because it was the last few minutes of the game when the score opened up. Coach Simonich once said: "Robbie Harrington made a two foul shot and stole the ball from the other team. He left the game with a three point lead and the Mines were on the ball for more scoring and the rest is history." 

This was the last point in the game of the night. Ken Myhre broke the Mines scoring by the same time and the score up to 37-37. Jim Ceserani put in another foul shot and brought the score to 37-39. After both teams had made foul shots and tied the game at 39-39, the lead was again in the hands of the Mines. 

The second half got off to a better start than the first half. John Conway made two foul shots and the Mines moved into a 42-39 position. As more sloppy play developed in the game, the score rose to a 54-54 tie. Alberta was outplayed by a full court press throughout the game and once again applied it. This slowed down the Mines some degree but not to any great profit to the Alberta team. The Mines scored off of mistakes by the other team, Jack Kenyon, foiled out. With its six minutes remaining in the game, Coach Simonich once again put in the second team and the Mines led at 61-49. The Mines playing a half minute and a half left to play, Coach Simonich once again made a shift and put in the rest of the team and the Mines led 64-54. A few more baskets were made and the final buzzer sounded, Robbie Harrington made a shot from half court and the final score read 69-58 in favor of the Mines.

Kitty: "The man I marry must be a hero." 
Kitty: "Oh really, dear, you're not that bad."
A small town is the only place where sound is faster than light.—William L. Zeigler, New Oxford (Pa.) Item.

How much Federal aid did the Pilgrims get? They were in a depressed area—and no one guaranteed them high prices for anything.—William L. Kinney, Marlboro Bennettsville (S. C.) Advocate.

Only one man in a thousand is a reader of men. The other 999 are followers of women.

Horse sense is what keeps horses from placing bets on people.

Some students plan to work during the Christmas Holidays.

Some students plan to make money during the Christmas Holidays.

“A small town is the only place where sound is faster than light.”—William L. Zeigler, New Oxford (Pa.) Item.

“Your husband looks like a brilliant man. I suppose he knows practically everything?”

“Don’t be silly. He doesn’t suspect a thing.”

Boss: “Who told you that you could neglect your office duties just because I give you a little kiss now and then?”

Secretary: “My attorney.”

Three hard-of-hearing Englishmen were traveling together in a railway coach. As the train pulled into the station one of them said, “Ah, this is Wembley.”

“No, it isn’t,” said the second, “it’s Thursday.”

“So am I,” replied the third.

“Let’s go to the bar and have a drink.”

IE: “How did you puncture that tire?”
EE: “Ran over a milk bottle.”
IE: “Didn't you see it?”
EE: “Now, the kid had it under his coat.”

I am often asked why I never married. It is an old story, really. When I was young, I was standing in a crowded subway and unfortunately I tripped with my big shoes on a lady’s foot. She yelled furiously and then, suddenly turning around, quickly apologized: “Sorry, I thought you were my husband.” At that moment I decided to remain a bachelor.

College Queens make great discovery in New York!

Of course, they loved the city—the fun and the excitement. But they also learned about diamond rings—discovered there is a way to be sure of the diamond you buy. They saw how Artcarved guarantees every diamond in writing for color, cut, clarity and carat weight. They were impressed by the proof of value offered by Artcarved’s nationally-advertised Permanent Value Plan, backed by the quality reputation of this 110 year old firm. And, they were most delighted with Artcarved’s magnificent assortment of award-winning styles.

ASSM Election

There will be an election for Delegate-at-Large, Thursday, December 14, 1961. The candidates are Ed Shumaker and Ray Kotow. Voting will be from 11:00 a.m. to 8:00 p.m. in the Copper Lounge.

Professor Stout Addresses Mining Association

Koehler S. Stout, associate professor of mining engineering at MSM, addressed the Northwest Mining Association in Spokane, December 2. Professor Stout discussed, "Do Supervisors Also Have To Be Teachers?"

"There are three primary methods of instruction and learning most frequently used in schools, Professor Stout explained. The first consists of exposure, reading, and drill; the second embraces lecturing in discussion groups; the third involves self-study or self-instruction apart from the classroom. There is also learning associated with emotional shock or process.

"All of these symptoms are useful in education. At the college level, discussion groups and self-study are probably more commonly employed than in the grade and high schools. In the more rigorous college courses, however, the exposure, recitation, and drill methods are usually the most effective."

Mr. Pickard has worked as a petroleum geologist for both Pan American Petroleum Corporation and Continental Oil Corporation. He is the son of Mrs. Violet L. Pickard of Butte, Montana.
