2-22-1963

The Amplifier - v.8,(a-7) no. 7

Associated Students of the Montana School of Mines
Late News . . .

- William Coghlan and Marvin Senne, seniors, represented the Mining Chapter of Montana Society of Engineers at the 92nd Annual Meet- ing of American Society of Mining Engineers.

- Professor John McCallin will speak tonight before the Instrument Society of America at Idaho Falls, Idaho. He will discuss "Instrumentation for Mining Engineers."

- Mine rescue training will be offered to the senior Geological, Petroleum and Mining engineers from February 25 to March 1. Meteorological and Mineral Dressing seniors will take the rescue course from March 8. Soophomore engineering students will take first aid classes, beginning February 11, from 5 to 7, from February 25 to March 1, Those with last names from M to Y will take the course from March 4 to 8. All classes will be in the afternoon.

- Friday, May 17 is the date for the 36th Annual Council on Student Affairs for the Montana School of Mines.

- Dick O'Brien will leave for Chicago the 22nd of February to compete in the national Golden Mitt competition.

- Coach Sizemore has announced that all volleyball teams and rosters must be in his office no later than today.

**Companies Interviewing**

These companies are scheduled for future interviews on campus: Sham Oil Company (2nd visit), Geophysical Service, Continental Oil Company (2nd visit), U. S. Steel Corporation, Joy Manufacturing Company, and The Pure Oil Company.

**Washington, the Engineer**

George Washington, considered the "Father of Our Country," was well known for his military and political abilities. However, this great man was also proficient in yet another field—mining. After the resignation of General水肿ch the week of February 22 has been designated as National Engineers' Week.

**Harnish, Vine to Big D**

Professors William Vine and Douglas Harnish, Jr., will attend the 36th Annual Meeting of the American Institute of Mining, Metallurgical and Petroleum Engineers to be held in Dallas, Texas, Feb. 24-28, 1963.

Professor Harnish, reappointed for another term as chairman of the Student Affairs Committee, hopes to attend the Council of Education Talks during the Sunshine weekend and to start a program to improve Communications for Student Members within AIME.

Professor Vine will present the paper "Cooperative Education in Mining Engineering: Experience at Montana School of Mines, Butte" at a joint session scheduled by the Education Committee of the Society of Mining Engineers and the Society of Petroleum Engineers. This session entitled "Cooperative Education as a Cure for the Engineer Shortage and Low Enrollment" will feature a series of papers and a panel discussion in which educators and industrialists will evaluate the results achieved and those in prospect. Moreau E. Weathering, Director, Manhattan, Director of Labor Union Building. In time of need, ratings range from a level of "1" to a high of "4." We have been assured that shelters on the campus have high ratings. Campus shelters have been established in the Library-Museum Building, Main Hall, the Engineering and the Student Union Buildings. In the event of need, they will shelter students who are educationally or physically handicapped as well as townspersons in the immediate area who cannot be safely protected in their own homes.

At some future time these established shelters will be stocked with supplies by the Department of Civil Defense. These supplies will be sent out as part of the two organizations have originated certain mutually beneficial field practices. One example is the employment of students of MSM for one or two shifts per week. Disadvantages of the contiguous location of the two organizations is also discerned.

Additional papers will be presented by S. R. Hume, Manager of Mines, New Jersey Zinc Co.; H. William Ahrenholz, University of Alabama; Dean Curtis L. Wilson, Missouri School of Mines and Metallurgy; and an alumnus of MSM (prepared by C. W. Grate); and Charles T. Holland, Dean of Mines, West Virginia University.

Carl Gallin, University of Texas, and Howard L. Hartman, The Pennsylvania State University, will be the moderators of the panel discussion.

**Fallout Shelters**

by D. E. KOCH

New signs have appeared on our campus within the last few days. They are orange and black and indicate "Fallout Shelters." Behind the erection of these signs is a long story—too long to be told here—but a few of the highlights may be interesting.

Before any building can be established as an official fallout shelter, it must be surveyed by Army Engineers and given a protective factor indicating the amount of protection available in the shelter. Rating range from a low of "1" to a high of "4." We have been assured that shelters on the campus have high ratings. Campus shelters have been established in the Library-Museum Building, Main Hall, the Engineering and the Student Union Buildings. In the event of need, they will shelter students who are educationally or physically handicapped as well as townspersons in the immediate area who cannot be safely protected in their own homes.

At some future time these established shelters will be stocked with supplies by the Department of Civil Defense. These supplies will be sent out as part of the two organizations have originated certain mutually beneficial field practices. E-DAYS

On March 16 and 17, Montana School of Mines will throw open its doors to the general public with the intention of presenting the public with an accurate picture of the college. It is our obligation as citizens to make this open-house interesting and informative.

Because the faculty elected to hold E-Day but once in every two years—a retrogressive move—many students are not aware of the mechanics of E-Days. It is up to us to acquaint ourselves with E-Days and then to work for its successful presentation. With a good program, we can show the public exactly what Montana School of Mines the "invisibleness" of our college.

RETURN

First semester is over, report cards are no longer novel, we are once again deeply involved in summer school. We are starting anew, what some call "the rat race," and what others call "a challenging experience." At this point in our lives, we are not only forging the die that will shape our future, but we are also shaping the course of our college. Montana School of Mines is no better than the people who attend it. If we are to show the people that attack our school that Montana School of Mines is worthy of support, then we must maintain our own academic excellence.

It is a sad commentary on our academic abilities that almost twenty percent of the student body did not return for the second semester. Although we are not always aware of it, for a good reason: we bandied about in the Legislature. We should like to present the public with an accurate picture of what our representatives welcome the people's opinions. We would like to demonstrate, not to limit rowdy and rude demonstrations. Let us not forget that our elected representatives are her hobby (she has seven of them). She also enjoys working with the students.

Communication

The students at Montana School of Mines should be indignant at the treatment they have received. When the Alumni decided to introduce a bill that would legally change the name of our school, our student body was not even officially notified that such a change was being asked for. We do not desire to remind the administration that there is a certain "lack of communication" on our campus, but again and again we find that there is this lack. Let us not forget that as much as the student has elected to attend Montana School of Mines he should at least be informed of something as important to him as a name change.

In regard to this same matter, a directive was issued by the administration to the effect that in case of something as important to him as a name change. He did not use the word "asked." It was one day a freshman walked into the bookstore and asked Mrs. Lois Fordmier if he could change his name. Lois said that her grandchildren are her hobby (she has seven of them). She also enjoys working with the students.

Have You Heard?

Word is out that "Big Ed" placed a notice on the bulletin board in the gym, which read, "Because of the large number of students who asked to check and revise your squad rosters," So many fellow students of Montana College of Science "Deans' Team" that they can't find the time for the intramural league.

Have you ever heard of a senator who is also the chairman of his own committee? That's Mrs. Niel. Did it seem that the day a freshman walked into the bookstore and asked Mrs. Niel how much "Stevie Niles" cost. After repeating his question several times he proceeded to get one and show it to her. Oh, yes, to all interested buyers, they cost 15c.

Gambling has been reinstated at the Mines. One illustrious student placed two nickels in one of the pop machines and received in return, the two nickels plus a bottle of pop. Feeling exceptionally lucky, the two nickels were once again inserted into the slot machine. This time there was no money, just pop. However, the Mad Pop Machine Raider is determined to prove that one can get something for nothing. Mines definitely do not work, but every day two nickels are placed into the machine. Yes — this article was written several hot days ago.

Lee Saperstein expects blood and sweat from his AMPLIFIER staff. He was observed leading the way as he hiked all over the publications office.

7 Juniors | 3.57 | 8 Engineering Freshmen | 3.46
8 General Sophomores | 3.51

WOMEN'S NEWS
IAWS Convenes
Four girls were recently elected to attend the annual IAWS (Inter-collegiate Association of Women Students) to be held in Butte February 22nd and 23rd. They are Carol Griffith, Co-ed president; Lee Ann Peters-
13tnethurst, Sandra E. Fairfield Fr. Eng 15 49

Women's News
SIGMA RHO NEWS
Sigma Rho enjoyed having George B. Butte, Bill MacFarlane, David Rose, Myron Taylor, and Lee Tedesco for dinner on February 10. We hope that the guests were im-
pressed by the brotherhood and the activities of the fraternity.

The recently elected fraternity officers for the spring semester are David Rovig, Archon; Robert Shogran, Vice Archon; Larry Ketcher, Secretary; Lewis Gru-
nell, Sergeant-at-arms; and Conrad Engelhardt, Scribe.

At the first meeting of this semester several pledges were voted in as active members: Man-

sor Awan, Mansoor Dehghan, Raymond Huypp, Joseph Kan-
die, Donald Podoloski, Steven Simmonds and Calvin Strobel, the new active members, will be given a formal initiation in the Sig-
ma Rho House on Saturday, Feb-

uary 16. After the initiation cer-
emony the fraternity will ad-
tain to the Vegas Club for a dina-
er dance. The Fr. J. Trio will provide music for the dance.

Roger V. Pierce, Sigma Rho alumnus, will visit the fraternity Tu-

eas, January 20, and Bob Pierce, a mining consultant in Salt Lake City, has been almost solely responsible for the pur-

chase of the Rho House. We are looking forward to Mr. Pierce's visit and we expect he will give us information concerning the house.

ANDERSON-CARLISLE
KING "Stock Investments, Hw, When and Why," was the title of a talk presented at the Febru-

ary 13 meeting of the Anderson-

Carlisle Society by Joe P. King. King represents Investors Di-

versified Services, Inc., in the Butte area. He was invited to present his informative and in-

teresting topic by George Bron-

son, chairman of the Petroleum Section.

CHESS CLUB
The Chess Club is the newest club at the university. It will participate, with representatives from other Montana col-

leges, in discussions concerning the activities of their schools through club activities. Ideas for social activities, along with problems encountered by the various AWS clubs, will be shared, also election of state officers will be held.

Co-ed Marlies Carroll Student Council: On February 2, Miss Jean Parker, former M.S.M. cheer-

leader, married James McCon-

nicky, a senior at Carroll College. Vows were exchanged in St. Helena Cathedral in Helena.

Eastem Outlasts
Miners at Billings

The Miners, in their second game of the new half, were out-
classed by the Eastern Yellowjackets 86-50 in their new field
house, February 7, in Billings.

The Yellowjackets were led by 6-8 Screem and 6-4 Neomond
who carried the scoring for 16 points apiece. The Miners were
led by Frank Sopko who net-
ted 23 points. He was aided by
teammate John Badovinac, with
17.

The Eastern crew proved its
supremacy, by housing in most
of the rebounds and forcing the
smaller Miners to "shoot out"
with little success. The Yellow-
neck was 57% from the floor and
time lead and forged on to their
final score of 80-50.

The victory was Eastern's sixth
straight mtcgy victory, while the
Miners still looked for their first
win in 8 games.

Outside Athletics

School of Mines students are
active in many extra-curricular
activities in and around the City
of Butte. Playing in the city
sponsored men's independent
basketball league are: Jack Ho-
gate for Prudent, Jerry John-
son for the Eagles squad, Tom
Dunstan and John Comors of
Rob and Joe, Chum Boett and
Rick Garcia for the Chuck Wa-
son, John Dunstan and Keith
Finley for the Deluxe Bar.

Jerry Leveque, George Sever,
Pamela Peter and Paul Hansen
are members of the Sheppard's
Candy Shop bowling team in the
Teena League at Marty's Bowling
lanes.

Mick O'Brien during the past
week successfully captured the
championship in the middle-
weight division of the Inland
Empire Golden Gloves Boxing
Tourney held in Billings. Mick
was also presented the most
promising boxer award.

Entered in the Elk's Handball
Tournament are Earl McCarthy
and George Sever.

Hockey

Present semifinalists in the
doubles handball tournament are
P. Panico, P. Penny and G.
Sever. The finals are between E.
McCarty and J. Mooney.

It has been requested by
Coach Simonich that this tourna-
ment be finished as soon as
possible.

Professor Laity, did you know
that Henry Ford forgot to put
the reverse gear in his first au-
tomobile?

EASTERN OUTLAYS MINERS AT BILLINGS

The Miners, in their second game of the new half were out-
classed by the Eastern Yellowjackets 86-50 in their new field
house, February 7, in Billings.

The Yellowjackets were led by 6-8 Screem and 6-4 Neomond
who carried the scoring for 16 points apiece. The Miners were
led by Frank Sopko who net-
ted 23 points. He was aided by

teammate John Badovinac, with
17.

of the rebounds and forcing the
smaller Miners to "shoot out"
with little success. The Yellow-
neck was 57% from the floor and
t ime lead and forged on to their
final score of 80-50.

The victory was Eastern's sixth
straight mtcgy victory, while the
Miners still looked for their first
win in 8 games.

Rocky Defeats Min-
In Billings

A five-man scoring attack on
Tuesday, February 5th in the
Rocky Gym smeared the Ore-
diggers for a score of 94-84. Of
the five Bears who scored in the
double figures, Jerry led with 18
points and was followed by Dan-
das with 15. Leading the Miners
were Vic Magnus with 15, Frank
Sopko with 13 and Tom Losabeaux with 10.

The Rocky Bears, making good
use of their Tourney night sur-
ge to an early lead and at half-
half, were boosted by the Ore-
diggers 42-23. The Miners con-
tinued with their fire in the se-
ccond half and finally smothered
the Miners 98-54. The Bears contin-
ued to roll in the second half and did a
repeat performance of the first.
The Yellowjackets thus proceeded
to coast to the final score of 91-
47.

Freshman center, Frank Sopko,
staged a one-man effort to keep
the Orediggers in the contest,
with a fast 29 points which
won. The Bears continued to
roll in the second half and did a
repeat performance of the first.
The Yellowjackets thus proceeded
to coast to the final score of 91-
47.
