This Book is brought to you for free and open access by the Student Newspapers at Digital Commons @ Montana Tech. It has been accepted for inclusion in Amplifier (1955-1977) by an authorized administrator of Digital Commons @ Montana Tech. For more information, please contact sjuskiewicz@mtech.edu.
Five pretty young women are vying for the title of 1972 Homecoming Queen at Montana Tech. They are: Teri Ward, representing M. Club; Judy David, senior class; Nancy Antonioli, junior class; Barbara Hayes, sophomore class; and Karen Seymour, freshman class, all of Butte.

The conference game of the season. Also and cars will be judged during the parade, and the winners will be displayed at halftime of this afternoon's football game.

The Tech Oriole and the Rocky Mountain College Bears will clash at 1:30 Saturday afternoon in Alumni Coliseum. The Sub provides a variety of acquiring education.

Activities include volleyball, swimming, learning Bridge, and in general and relaxed. Even some of the more grim and serious-minded professors have changed from last year. There is a considerable change from last year.

The faculty seem happier and more relaxed. Even some of the more grim and serious-minded professors have seen enough laughter and acting humor. Perhaps this is too much optimism, but one can always hope. The combination of having this new addition to the campus, plus a new president has helped the moral of Tech, if anything, more than anything that has happened in a long time.

Students enjoy gathering together to see their friends. The students and faculty have an opportunity to see each other outside of the classrooms and labs. The Sub provides a variety of excellent food which makes eating more interesting and enjoyable. Now that this fine addition exists.

Five pretty young women are vying for the title of 1972 Homecoming Queen at Montana Tech.

They are: Teri Ward, representing M. Club; Judy David, senior class; Nancy Antonioli, junior class; Barbara Hayes, sophomore class; and Karen Seymour, freshman class, all of Butte. One of these will be homecoming queen at Montana Tech.

The Tech Alumni and Booster and Century Club members are invited to lunch at Tech's newly remodeled Student Union Building. Beginning at 9:30 Saturday morning, alumni and members of the Booster and Century Clubs may register at the Alumni Lounge and Supper Club on the corner of Wyoming and Broadway Streets. Free parking will be available throughout the day in the Anacanda Company parking lot across Granite Street from the Hennessy Building. A bus will carry fans from the Acme to Tech for lunch and the game back to the Acme.

During halftime, the Butte High School band and the Purple U's drill team will perform, and the Homecoming queen and her court will be introduced.

The football game, Montana Tech Alumni and Booster and Century Club members are invited to lunch at Tech's newly remodeled Student Union Building. Beginning at 9:30 Saturday morning, alumni and members of the Booster and Century Clubs may register at the Alumni Lounge and Supper Club on the corner of Wyoming and Broadway Streets. Free parking will be available throughout the day in the Anacanda Company parking lot across Granite Street from the Hennessy Building. A bus will carry fans from the Acme to Tech for lunch and the game back to the Acme.

The following game, the Booster Club; Century Club and alumni are invited to a party at the Acme about 4:30. At 6:30, dinner will be served. Tech's Don Hester, who recently returned from a stint with the St. Louis Cardinals, will speak about professional football.

At 9 o'clock Saturday night, activities for the students will conclude with a dance in the Student Union Building, featuring the music of Tink and Plunk.

AWS Selects Officers
Associated Women Students is an organization for all women on the Tech campus. Recently they have finished selecting their officers. Elected for the 1972-73 school year are:

President, Anne Helm
Vice President, Carol Bucher
Treasurer, Janice Bassol
Secretary, Susan Ries, outstanding student in Girls, Inc. and various other organizations.

W.R.A. Campus Club for Women
W.R.A. (Women’s Recreation Association) is an organization for women who have an interest in sports, exercise, and recreation.

During the year, W.R.A. offers several special events. These include the annual soccer tournament, tug of war, swimming, and volleyball. The biggest event of the year is the football game during the season. W.R.A. is also allowing, for the first time, during the football season. Also planned, for the spring semester, is a play. At this time girls from the surrounding areas (Dear Lodge, Anscocent; etc.) are invited to join W.R.A. to participate in swimming, basketball or soccer. All events will be held on campus during the day. This play is only for fun and will be planned by the girls. It also gives the girls a chance to see our campus and talk to various students.

This year’s officers are:
Elliss Clark, President
Terri O’Donnell, Vice President
Nancy Cunneen, Secretary-Treas.
Mrs. Peggy Sonnenfeld, Faculty Adviser

W.R.A. meets at 7:00 on Tuesday evening in the gym. ALL GIRLS ARE FORDHAM STUDENTS.

$5.00 for attendance.

W.R.A.

Women's Minority
Women are a minority at Montana Tech as figures become smaller. In spite of a 12 percent decrease, in enrollment from last year, women still constitute only about a third of the student body, in case someone hasn't noticed.

This year’s total enrollment was 789 with only 190 women students. The larger 599 men or what do we call the 59%? Last October’s figures were 224 women and 747 men students.

Cheer Squad Named
Sparkly Carol Yakob is the new head cheerleader of Montana Tech. The four other vivacious young women who complete the cheer squad are Barbara Hayes, Kathy Dillon and Mary Beth Parker. All five are from Butte.

Miss Yakob, a sophomore, is an education major. She was a cheerleader last year and is a member of Women’s Recreation Association and Montana Tech Library Students.

Miss Hayes is a sophomore history major, also belongs to W.R.A. and AWS.

Miss Beaudry is a transfer in nursing and was named secretary.

She is a sophomore.

Miss Dillon is also a sophomore.
Her major is English and mathematics.

Miss Parker, a graduate of Butte Central High, School, is a junior with a double major. She is a cheerleader and a member of the history and English classes.

O’Rourke, a junior in business, is a cheerleader and a member of the student body, but doesn’t forget to go out and vote. Her message: "Let your conscience be your guide.”

Lobster is pickering the Farm Market situated here, due to the lack of an organization and unfair labor practices. The strike is now in its fifth month and the workers need your support. DON’T BUY FARM CLOTHING!

The various posters and signs around the campus are for the strike to read and thus become familiar. Some of them are using the artist’s talents. This is the only way to keep alive, which should not be terminated. Display your artist’s talents using some other conventional means.

Election years always fall, of peaceful lions throwing the ballots; but if any does anything, all the hawks get their chances.

Political pled-papers always wear smiling of welfare, pension plans, but give us police actions, and blackened hawks.

To keep both our minds and our hands free, be informed. No fear and fun must be provided a by a free people.

The dedicated students of Professor Tim Melzer’s class request that he please come to campus on time.

If you don’t become involved in the various campus activities, how can you say you are a student at Montana Tech? The education of the white person is important because the person requires social as well as moral activity. The various campus clubs were created for the student’s benefit. Not just for lack of nothing else to do.

The Amplifier would like to place the words to the school song. Would anyone who has the words to the song, please bring a copy to Mr. Tony Taylor’s office.

It has been rumored that on November 1, the AMSCMS will hold a poll or vote taken on giving money for athletics. The secret has been kept well, and it’s not known what will happen if it is discovered, so the knowledgeable can engage in preparations. Would someone please inform the entire student body of the song.

Odds and Ends
Tech’s new Student Union Building is quite on campus to the building, but the fact the ash tree off one of the windows in the fire alarm being tripped up by both political parties: Vote Tuesday, November 7. That is all they ask that is we take the trouble to vote. This means that for the first time, the November 7 election is a referendum on the party system narrows the voter’s choice on election day. Political candidates and their supporters have spent much time and effort to persuade each one of their people to do his part.

All that they ask is that we take the trouble to vote. This means that for the first time, the November 7 election is a referendum on the party system narrows the voter’s choice on election day. Political candidates and their supporters havespent much time and effort to persuade each one of their people to do his part.

**Residence Hall**

"Meals drop to complete silence."

"The TV room is impossible."

"The rooms are big and nice.

"My heater is either very hot or very cold."

"It's a long trek to the nearest to the mail."

"Not many girls, LOTS of boys."

"When I show up in the lounge nowadays, I get a warm greeting and a complete silence."

"I feel much more a part of a team."

"The dorm life is fun and it's a learning experience."

---

**Butte Symphony Presents Concert**

The Butte Symphony, under the direction of Fred Hinrichs, will present its first concert of the 1972-73 season Sunday afternoon, Oct. 29, at 2:30 in the Butte Central Auditorium.

Montana Tech students with identification and a $2.50 donation at the door to the drama society will be admitted free to the concert.

The program will consist of music from our symphony's archives and will begin with the "Overture to the Silken Slaver" by Rossini, "Symphony No. 9" by Schubert, and "The Road" by Beech, "Sheep and Goat at Pasture" by Gounod, and "El Capitan March" by Sousa.

The concert will begin promptly at 2:30.

**Project Recycle Needs Tin Cans, Newspapers**

**Montana Tech's "Project Recycle" has been started by the environmental engineering program at the college.**

In an effort to supplement textbook study, Mark Bossard, Cam Balentine, and Jim Hester of the Montana Tech Student Body have created a paper recycling project for tin cans and newspapers. They have named their project "Project Recycle" in response to a social need, "emphasizes the students."

According to Floyd Bossard, head of Tech's environmental engineering program, the project will pay for itself in the near future, as it is hoped that the book will be sold to cover the actual cost of production and that the actual cost of production will go to the fund for Maried Student Research. A commission of $1.00 per pound will be given to any campus or off-campus book stores taking tin cans and newspapers. Further information will be available through the Office of Student Affairs (119).""The dust of the last cigarette has been collected for the project.""

Approximately $7,000.00 will be raised from the sale of the book and the paper recycling and money from this will be used to assist UNICEF's international fund for their own children's survival and education."

---

**WMAA Convention**

"Protecting the minerals environment is the theme of the first Western Montana Mining Association convention held on Tech's campus October 26-27. The Montana Bureau of Mines and Geology was also co-sponsor of the meeting. Approximately 350 people registered for this convention."

In addition to technical papers, tours were provided for points of interest in our city. Luncheons were served by the city of the Saltes and the bakery held the Romano Inn featured songs by Mrs. Barbara Huntley and Mrs. Keel Lundergrind. An analysis of the political situation was given by "Harrison Gallop." Experts in the minerals and energy fields warned the group that the fuel gauge and the treasure chest are open and that the next fifteen years are critical for energy sources. By the year 2000, the other mineral industries may depend on new sources of energy that are now being developed. By the year 2000, the other mineral industries may depend on new sources of energy that are now being developed.

**Commemorative Book to be Published**

The current editor of Magma, Mary Ann Gerling will publish a book on the history of the Montana College of Mineral Technology and its growth with that of the minerals industry. This book will give a brief history of the college from its very first view of color on Silver Bowl back in 1864. The growth of the mining camp and the needs, which were then foreseen that was to become the Montana State School of Mines 100 years, over 200 pages of pictures, facts and figures, showing the tremendous growth and wealth of potential Montana Tech processes. All college books will be a copper alloy coin originating from our Butte mines, each with a serial number registered to the subscriber of the book. Only those books actually ordered, bought, and paid for will be printed, making the actual worth of the book $5.00.

Full time students who have paid the annual fee will receive this commemorative book with combined with the regular 1972-73 yearbook at no extra cost. It is hoped that this book will promote both the school and the minerals (including petroleum) industries and a better understanding of both. Republic 119 of the book will be $5.00, of which those monies the actual cost of production will go to the fund for Maried Student Research. A commission of $1.00 per pound will be given to any campus or off-campus book stores taking tin cans and newspapers. Further information will be available through the Office of Student Affairs (119).""The dust of the last cigarette has been collected for the project.""

"Approximately $7,000.00 will be raised from the sale of the book and the paper recycling and money from this will be used to assist UNICEF's international fund for their own children's survival and education."

---

**Bicycle Museum Opens**

The Yellowstone Valley Invitational speech and debate meet opened the season for Montana Tech's forensics teams. Seven states participated. Of Montana Tech's four entrants in individual events, three made the semi-finals and Dan Parent, who spoke on "Conformity," was a finalist. Tech's debate teams fared well, according to Mrs. Lucille Alt, faculty adviser. The senior debate team of Wayne Brien and Donna McNally won two debates and the novice teams won three. Competing in this division were Mark Davis and Carl Gendron andsdale and Don Parent. All of Tech's participants are local students. This year's national debate question is "Resolved that the Federal Government Should Provide a Comprehensive Medical Care Program for Each U. S. Citizen.

---

**Butte Symphony**

The Butte Symphony, under the direction of Fred Hinrichs, will present its first concert of the 1972-73 season Sunday afternoon, Oct. 29, at 2:30 in the Butte Central Auditorium.

**Gals Invade Boys Dorm**

"Where people swarm like bees in the living room."

"Identical and cramped—we call it home."

"It is hoped that this book will promote both the school and the minerals (including petroleum) industries and a better understanding of both."

---

**Tongue Brushing**

Do you brush your tongue twice a day? You should, advises Gen. Sur- indra Ahluwalia, director of the U. S. Army Institute of Dental Research. For those who have proved that bacteria which cause gum disease and tooth decay live on the tip of the tongue.
Four Play Last Game

Saturdays game against Rocky Mountain College is the last home game of the season for Montana Tech's players. The four, all seniors have already converted to the team and are saying goodbye. The Orediggers are working on conditioning, but will begin to work on showdown this week. Coach Battenburg said visit Tech and said that the defense is far ahead of the offense, but he believes that it will take four of Montana's top four for a formidable team for their season opener.

Basketball Progress

Montana Tech basketball coach Terry Battenburg announced that the Orediggers are working on conditioning, but will begin to work on showdown this week. Coach Battenburg said that the defense is far in front of the offense, but he believes that it will take four of Montana's top four for a formidable team for their season opener.

Contest

$125.00 prize for designing the re-use of the cost to appear in the Commencement program. Design must reflect where and when the seed is sown leading to the creation of this institution, and be drawn in ink or brush on silver. The winning will be announced before Christmas break.

SEG Speaks

The Society of Exploration Geophysicists Distinguished Lecturer for Montana Tech is Larry Harkins of the Geological Survey. He received his B.S., M.S., and Ph.D. from the University of Utah. Dr. Harkins is currently working on projects related to geothermal energy. His talk began with a short discussion of the type of energy we can experience. He feels that the heat generated beneath the surface of the earth can be exploited and used to produce energy instead of depleting further our oil, natural gas, and coal supplies. He believes that steam extracted from deep underground areas where volcanic activity has been known to exist at the surface can be used to generate electrical power. Power plants of this type are already in use at Newberry, Oregon, in Grand, Montana, in Larderell, Italy, and in Teheran, in Iran.

Library Hours

The Tech library is a forum. It is not in terms of materials available, but in terms of hours and events occurring in the library. It is important to know the times that the library is open and the events that occur in the library.

Orediggers

Shorted 17 - 13

A tough Carroll College defense proved to be too much for Tech's Orediggers as the Saints won 17-13. The loss was Tech's first legitimate Frontier defeat in three years.

Larry Ryd

Football Player Ryd Majors in Mining

Montana Tech's starting right tackle and four-year letterman Larry Ryd is majoring in Mining Engineering. Larry, from Spokane, Washington, originally planned to attend Tech on an engineering scholarship. Upon acceptance by the mining department, Ryd wrote to the coaching staff and was given an athletic grant-in-aid to play football.

Geothermal power is estimated to cost from 1.2 to 1.4 cents less than the conventional power.
